

Access UT System Data Visualizations on Your Tablet Device

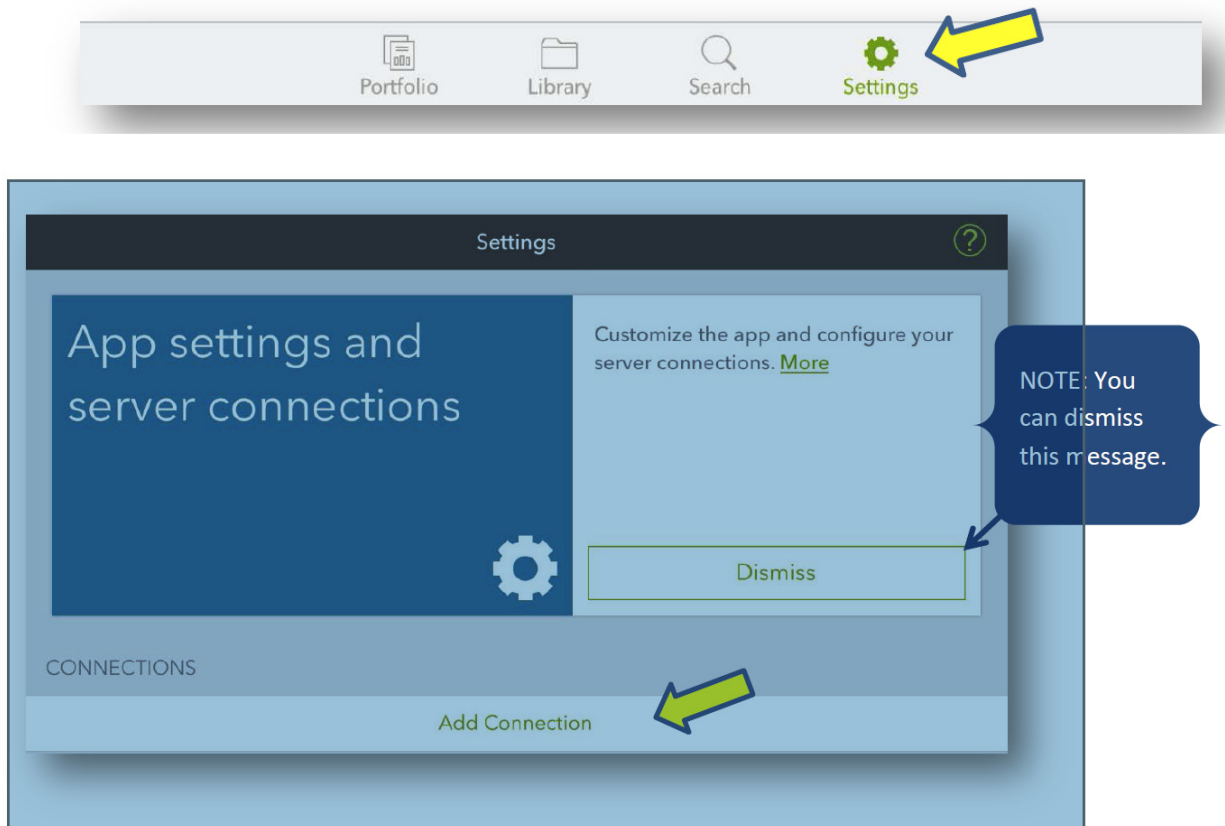

Step 1: Download the SAS Mobile BI application from the Apple App store on your iPad

Note: the SAS Mobile BI app for Android 4.X devices is now available at Google play.

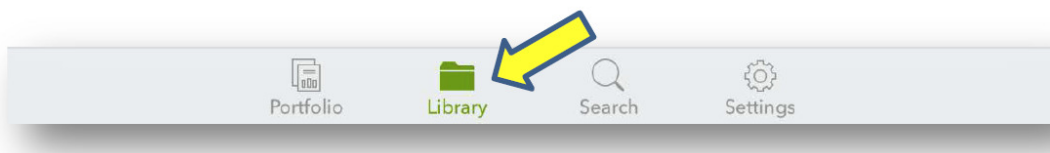

Click [here](#) to install the SAS® Mobile BI app, the third-party application that allows you to connect to UT System data.

Step 2: Define Connection to the server “Testdata.utsystem.edu” with the following guest info:

Tap the <Settings> icon located at the bottom of your screen.

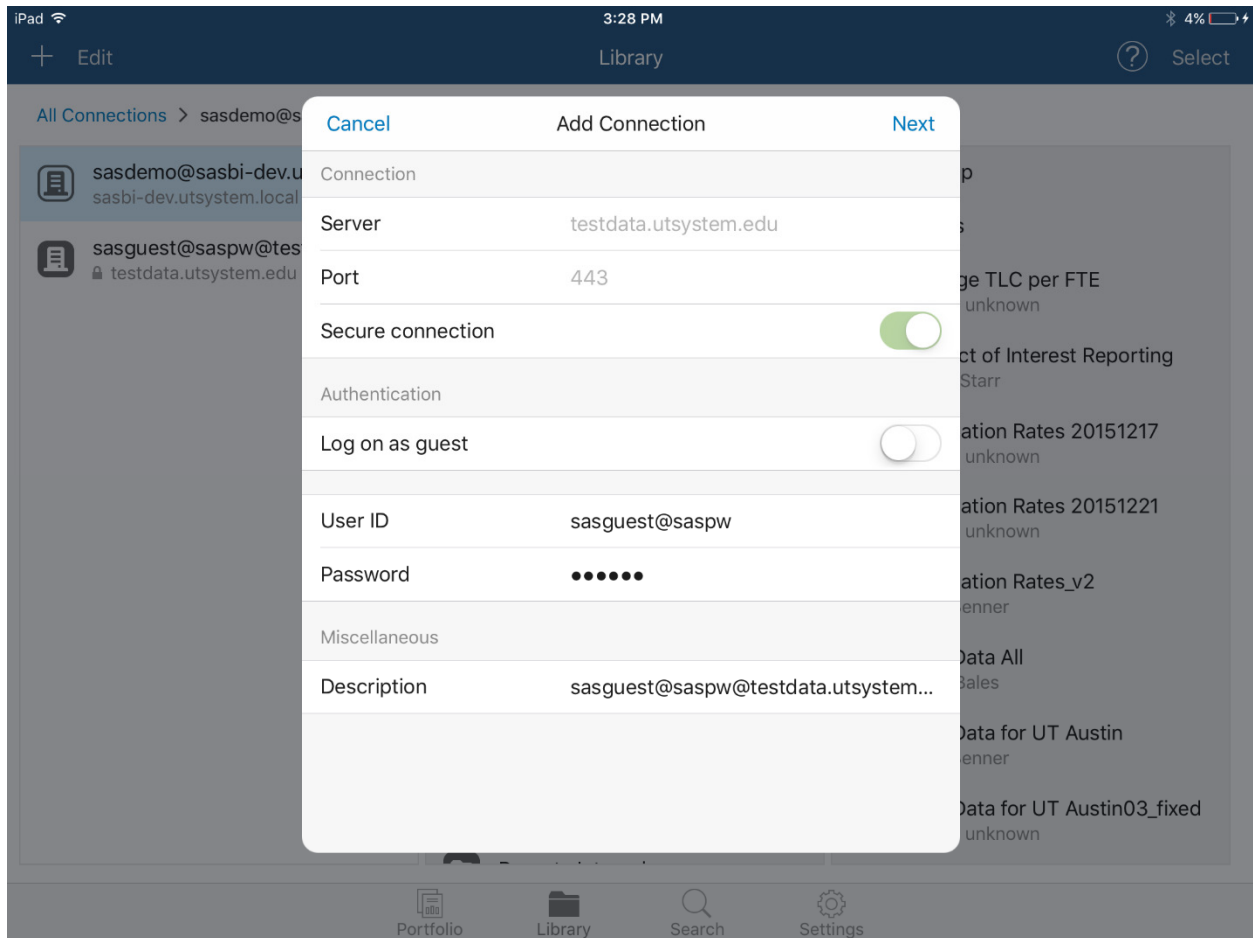

Tap the <Library> icon located at the bottom of your screen.

Updated 4/25/17

**Either go to the Library or Setting to ADD a NEW Connection. Use the Library button when you already have other server connections.

Server (**case-sensitive**): testdata.utsystem.edu

Port: 443

Secure connection should be ON

Enter AUTHENTICATION information and then tap <Next>.

User ID: sasguest@saspw

Password: welcome

Description: *You can put whatever descriptor you would like in this field*

Step 3: Subscribe to specific reports of seekUT and open them

With successful connection to the server, the reports are now ready for subscription.

1. Navigate through the path of **“Reports” > “SeekUT”**

Updated 4/25/17

2. Click to select all reports and hit the Subscribe button. Subscribing to a report downloads it to your device, ensuring that it is available even when you are offline.
3. In <Portfolio> you can access the reports you have subscribed to by tapping on the report icon one time.
