The University of Texas System Monthly Financial Report

Foreword

The Monthly Financial Report (MFR) compares the results of operations between the current year-to-date cumulative amounts and the prior year-to-date cumulative amounts. Explanations are provided for institutions having the largest variances in Adjusted Income (Loss) year-to-date as compared to the prior year, both in terms of dollars and percentages. In addition, although no significant variance may exist, institutions with losses may be discussed.

The data is reported in three sections: (1) Operating Revenues, (2) Operating Expenses, and (3) Other Nonoperating Adjustments. Presentation of state appropriation revenues are required under GASB 35 to be reflected as nonoperating revenues, so all institutions will report an Operating Loss prior to this adjustment. The MFR provides an Adjusted Income (Loss), which takes into account the nonoperating adjustments associated with core operating activities. An Adjusted Margin (as a percentage of operating and nonoperating revenue adjustments) is calculated for each period and is intended to reflect relative operating contributions to financial health.

THE UNIVERSITY OF TEXAS SYSTEM EXPLANATION OF VARIANCES ON THE MONTHLY FINANCIAL REPORT For the Six Months Ending February 29, 2016

Explanations are provided for institutions having the largest variances in adjusted income (loss) year-to-date as compared to the prior year, both in terms of dollars and percentages. Explanations are also provided for institutions with a current year-to-date adjusted loss and/or a projected year-to-date loss.

- (1) <u>U. T. System Administration</u> The \$278.3 million (195.0%) increase in adjusted loss over the same period last year was primarily due to a decrease in oil and gas royalties, which are a component of net investment income. Additionally, GASB Statement No. 68, Accounting and Financial Reporting for Pensions, became effective in 2015. U. T. System Administration recognized an accrual of \$106.4 million for the entire U. T. System for the first six months of 2016; however, in 2015 the pension expense was not recognized until July. Also contributing to the increase in the adjusted loss was an increase of \$53.5 million in the accrual for Other Postemployment Benefits (OPEB) expense for the entire *U. T. System*. Finally, in 2015, U. T. System Administration recognized \$40.6 million of gifts for operations for *U. T. Rio Grande Valley* with no comparable gifts in 2016. As a result of these U. T. System Administration year-to-date loss of \$421.0 million. Excluding depreciation and amortization expense, U. T. System Administration's adjusted loss was \$412.0 million or -215.6% of revenues. U. T. System Administration anticipates ending the year with a \$942.3 million loss, -334.3% of projected revenues, which includes \$18.0 million of depreciation and amortization expense, as well as a \$666.8 million accrual for OPEB and a \$212.9 million accrual for pension expense.
- (2) <u>U. T. Arlington</u> The \$3.5 million (39.9%) increase in adjusted income over the same period last year was primarily attributable to an increase in nonexchange sponsored programs as a result of increased Texas Research Incentive Program funds received in 2016 and an increase in state appropriations. Excluding depreciation and amortization expense, *U. T. Arlington's* adjusted income was \$35.3 million or 12.0% of revenues.
- (3) U. T. El Paso The \$3.0 million (40.3%) increase in adjusted loss over the same period last year was largely attributable to an increase in salaries and wages and payroll related costs due to a 2% merit pool increase implemented in 2016. As a result, U. T. El Paso incurred a year-to-date loss of \$10.3 million. Other factors contributing to the loss include the following: an increase in tuition exemption scholarship expense, primarily related to the Hazelwood and Hazelwood Legacy programs; and an increase in depreciation expense over the last five years as a result of the rapid growth of buildings and research infrastructure on campus. Excluding depreciation and amortization expense, *U. T. El Paso's* adjusted income was \$5.4 million or 2.5% of revenues. U. T. El Paso anticipates ending the year with a \$16.9 million loss, -4.0% of projected revenues, which includes \$32.1 million of depreciation and amortization expense. U. T. El Paso is implementing measures to reduce spending, including a hiring freeze on positions that are

- not mission critical, utility savings efforts, and other cost savings measures.
- (4) U. T. Permian Basin The \$4.1 million (112.4%) increase in adjusted loss over the same period last year was primarily attributable to a decrease in gift contributions for operations as a result of large contributions for the football program received in 2015 with no comparable gifts received in 2016. As a result, U. T. Permian Basin incurred a year-to-date loss of \$7.8 million. Other factors contributing to the loss include the following: an increase in salaries and wages and payroll related costs driven by merit increases and additional faculty to accommodate the increased enrollment and an increase in payroll related costs as a result of increased premium sharing rates. Scholarships and fellowships also increased due to increased enrollment. Excluding depreciation and amortization expense, U. T. Permian Basin's adjusted loss million -1.9% was \$0.8 or of revenues. U. T. Permian Basin anticipates ending the year with a \$10.6 million loss, -14.4% of projected revenues, which includes \$13.0 million of depreciation and amortization expense.
- (5) <u>U. T. San Antonio</u> The \$4.9 million (62.4%) decrease in adjusted income over the same period last year was primarily due to increases in salaries and wages and payroll related costs as a result of merit increases. Additionally, the monthly amount for Retiree Premium Sharing was not recorded in the prior year, which also contributed to the increase in payroll related costs. Excluding depreciation and amortization expense, U. T. San Antonio's adjusted income was \$26.9 million or 10.3% of revenues.
- (6) *U. T. Tyler* The \$2.2 million (90.3%) increase in adjusted loss over the same period last year was largely due to an increase in salaries and wages and payroll related costs driven by merit and market increases. The number of fulltime equivalents also increased as a result of the new College of Pharmacy and the implementation of PeopleSoft. As a result of these factors, combined with an increase in depreciation and amortization expense for the new Pharmacy Building, *U. T. Tyler* incurred year-to-date loss of \$4.7 million. Excluding depreciation and amortization expense, U. T. Tyler's adjusted income was \$2.1 million or 3.3% of revenues. U. T. Tyler anticipates ending the year with a \$14.8 million loss, -12.2% of projected revenues, which includes \$13.6 million of depreciation and amortization expense. The projected loss is the result of an increase in personnel and renovation projects across the campus not meeting the threshold for capitalization.

- (7) <u>U. T. Southwestern Medical Center</u> The \$34.7 million (70.3%) increase in adjusted income over the same period last year was primarily attributable to an increase in net sales and services of hospitals as a result of increased outpatient and inpatient revenue and an increase in net professional fees attributable to an increase in volume in managed care, Medicare and charity care. Other operating revenues also increased primarily due to increases in revenue from the Delivery System Reform Incentive Payments (DSRIP) and the Network Access Improvement Program. These increases in revenue were partially offset by increases in salaries and wages and payroll related costs as a result of additional employees, a 3% merit increase and increased premium sharing rates. Excluding depreciation and amortization expense, Southwestern's adjusted income was \$162.6 million or 12.1% of revenues.
- (8) <u>U. T. Medical Branch Galveston</u> The \$32.8 million (155.9%) increase in adjusted loss as compared to adjusted income over the same period last year was primarily attributable to an increase in salaries and wages and payroll related costs due to merit increases, and additional staffing resulting from clinical recruitment and preparation for the opening of Jennie Sealy and League City Hospitals. Payroll related costs also increased as a result of increased premium sharing rates. Other operating revenues also decreased primarily due to decreased revenue from DSRIP and Meaningful Use revenues. As a result of these factors, UTMB incurred a year-to-date loss of \$11.8 million. Excluding depreciation and amortization, UTMB's adjusted income was \$46.3 million or 4.9% of revenues. UTMB anticipates ending the year with a \$12.7 million loss which represents -0.7% of projected revenues and includes \$147.6 million of depreciation and amortization expense.
- (9) <u>U. T. Health Science Center Houston</u> The \$30.9 million (170.5%) increase in adjusted income as compared to the same period last year was primarily attributable to an increase in sponsored program revenue related to growth of the physician practice plan. Net professional fees also increased due to an increase in gross charges as a result of faculty recruitments and the planned expansion and growth of the physician practice plan, as well as an increase in uncompensated care revenue. These revenue increases were partially offset by increased salaries and wages and payroll related costs as a result of the ongoing recruitment efforts related to the planned expansion and growth of the physician practice plan. Excluding depreciation and amortization expense, *UTHSC-Houston's* adjusted income was \$79.9 million or 10.3% of revenues.
- (10) <u>U. T. Health Science Center San Antonio</u> The \$4.7 million (21.7%) decrease in adjusted income over the same period last year was primarily due to increases in other contracted services, materials and supplies and professional fees and services. Other contracted services increased due to increases in service agreements related to South Texas DSRIP programs and sub-recipient payments related to federal sponsored programs. Materials and supplies increased as a result of increases in drug and medication supplies at the Cancer Therapy and Research Center Pharmacy and UT Medicine clinics due to increase in clinical volumes. Professional fees and

- services increased primarily due to engagements with external consultants to develop a clinical transformation strategy associated with the physician practice plan. Also contributing to the variance was a decrease in state appropriations. Excluding depreciation and amortization expense, *UTHSC-San Antonio's* adjusted income was \$43.3 million or 10.6% of revenues.
- (11) U. T. Health Science Center Tyler The \$7.0 million (473.9%) increase in adjusted loss as compared to adjusted income over the same period last year was primarily attributable to the following: a decrease in other operating revenues driven by a decrease of \$1.9 million in Meaningful Use and Physician Quality Reporting System healthcare incentive revenue; and an increase in salaries and wages and payroll related costs as a result of the hiring of 66 behavioral health employees due to the dissolution of the main psychiatric subcontractor, as well as the addition of new employees for the new Population/Community Health Program and for the opening of the clinic in Lindale. As a result of these factors, UTHSC-Tyler incurred a year-to-date loss of \$8.5 million. Excluding depreciation and amortization expense, UTHSC-Tyler's adjusted loss was \$3.1 million or -3.5% of revenues. UTHSC-Tyler anticipates ending the year with a positive margin of \$2.1 million as a result of adjustments to the workforce size currently underway, a 3% institutionwide expense reduction initiative implemented for the second half of 2016, and anticipated growth in clinical services with a corresponding increase in net patient revenue. This represents 1.1% of projected revenues and includes \$10.9 million of depreciation and amortization expense.
