---

**MISSION AND DESCRIPTION OF THE UNIVERSITY OF TEXAS AT SAN ANTONIO**

The University of Texas at San Antonio (UTSA) is an emerging Tier One research institution specializing in health, energy, cybersecurity, sustainability, and human and social development. Overall, these programs generate more than \$1.2 billion in economic impact to San Antonio and the surrounding region. With nearly 29,000 students, it is the largest university in the San Antonio metropolitan region. UTSA is dedicated to the advancement of knowledge through research and discovery, teaching and learning, and community engagement and public service. The institution embraces multicultural traditions and serves as a center for intellectual and creative resources as well as a catalyst for socioeconomic development and the commercialization of intellectual property for Texas, the nation, and the world.

UTSA was established in 1969 and consists of three campuses: the Main Campus <http://www.utsa.edu/>, Downtown Campus <http://www.utsa.edu/dtcamp/> and Hemisfair Park, which is home to the Institute of Texan Cultures. UTSA prides itself on its diverse student population. More than 58 percent of UTSA students are from underrepresented groups and 45 percent of undergraduates will be the first in their family to earn a bachelor's degree. Additionally, transfer students are 35 percent of UTSA's total undergraduate population. Nearly 70 percent of undergraduate students are eligible to receive financial aid, including grants, scholarships, loans, and work-study jobs. We are a community that values excellence, collaboration, innovation and diversity.

UTSA is committed to the success of its students who are enrolled in the nine colleges and the Graduate School concentrating their studies in 70 bachelor, 68 master, and 24 doctoral degree programs. We place a strong emphasis on preparing students to excel in a global economy in any career they choose. These degree programs center on research, knowledge development, building leadership skills, participation in community service activities, and helping students become successful in their chosen career fields.

We are working to educate more students, align programs and services to improve graduation rates and learning outcomes, and chart a course to expand research and creative endeavors. UTSA provides a wide variety of quality programs and services designed to support student success and enrich learning and living experiences. For example, U.S. News and World Report ranked UTSA's College of Engineering nationally for producing the highest number of Hispanic engineers. The university is one of only 66 universities in the nation designated as a National Center of Excellence in Information Assurance by the National Security Agency. In addition, Hewlett-Packard / Ponemon Institute ranked UTSA number 1 in the Nation in Cybersecurity. UTSA is among an elite group of U.S. universities to earn the Carnegie Foundation's Community Engagement Classification.

UTSA has initiated a concerted effort to improve graduation rates over the past several years. 56 percent of the institutions first-time freshmen graduated in the top quartile in high school. The university has experienced almost 19 percent increase in the six year graduation rate since 2000 to a rate of 53.4 percent and the investments being made in student success will continue to provide improvement in completion rates.

We continue to raise funds to: 1) Create and strengthen undergraduate scholarships, graduate fellowships and other programs designed to foster student success; 2) attract, support and retain world-class faculty members and researchers; 3) create a vibrant, world-class campus life with top-tier cultural, academic and athletic programs; and 4) establish and advance centers of knowledge that address pressing global challenges.

**COORDINATED STUDENT SUCCESS INITIATIVES**

UTSA has transitioned from a historical access mission to one that translates access into academic success. To promote undergraduate student success, the university has implemented several coordinated student success initiatives that combine predictive data analytics with the level of student guidance needed to improve retention, shorten time to graduation, and increase number of degrees awarded.

## Administrator's Statement

10/17/2016 1:48:35PM

85th Regular Session, Agency Submission, Version 1  
Automated Budget and Evaluation System of Texas (ABEST)

---

### 743 The University of Texas at San Antonio

---

The first initiative provides both timely reminders and academic offerings before the start of the first fall semester to better prepare first-year students for the university education environment. The second initiative crafts a variety of financial support based on merit and need. The third initiative involves the students' first year, with every freshman assigned to a cohort related to a preferred major. Each cohort is enrolled in certain common classes as a group, and has its own instructor, advisor, peer mentor, and graduate teaching assistant to enhance mutual support and bonding. The fourth initiative offers academic support outside the classroom, such as supplemental instruction, tutoring, and additional mentoring to help students pass historically difficult courses. The fifth initiative focuses on career counseling and professional development experiences to prepare students to enter their chosen careers. In addition, each student is assigned a personal academic advisor for mentoring while at the university. DegreeWorks is used by academic departments to determine how many sections of high-demand courses will be needed each semester. Supporting all the initiatives will be the use of powerful predictive analytics tools to identify needs and issues before they develop into barriers that cause the student to drop out of college.

#### RESEARCH

UTSA has a goal to become a nationally recognized research university to benefit our local and regional communities while having global relevance and impact. The university is focusing on a Discovery to Delivery theme and building momentum in research. In late 2014, UTSA launched Accelerate 2025: UTSA's Framework for Top Tier Research. This strategic guidance was conceived through collaboration and in-depth discussions across all levels of faculty and leadership and illustrates how UTSA is poised to become a top tier research institution. To achieve this vision, UTSA has identified eight pathways to success: invest in faculty to increase funded research, capitalize and promote areas of research excellence, reward scholarly excellence, enhance graduate and undergraduate research, strengthen and expand partnerships, enhance research infrastructure, increase the impact of university innovations and build effective communications.

Over the past two years, leadership at UTSA has focused on its faculty by providing them with the tools necessary to increase the quantity and quality of proposal submissions. UTSA has also launched a targeted recruiting effort to attract faculty members with established research programs and associated extramural funding. Focus areas for recruitment surround the identified areas of research excellence, such as cyber security and neuroscience. Through the UTSA Gold Star Initiative, the university has dedicated \$40 million to hire 60 top tier faculty over a four year period. This boost in research intensive faculty will help the university reach the goal of a sustained \$75 million in annual research expenditure by the year 2020.

UTSA has also focused efforts to enhance the research and communications infrastructure across campus. Through leveraging a dedicated task-force of key stakeholders, UTSA has already optimized research space and enhanced critical components such as high speed Internet, instrumentation, and core computing facilities. Furthermore, UTSA has streamlined business operations within core research facilities and has added four new cores to help our faculty advance experimental learning for students, while advancing their overall research programs.

With a stimulus of research faculty, optimization of existing faculty and improved research facilities and resources, UTSA is already yielding results. Although UTSA experienced a two year decline in research expenditure (FY2013 – FY2014), in FY2015 the trend turned upwards to \$52 million. Research awards in FY2016 are estimated to reach \$60 million, which will lead to increased expenditures in the following year. UTSA plans to continue adhering to this research framework assisting in advancing towards our goal to become a Tier One research institution by 2025.

Commercialization of intellectual property and entrepreneurship are playing a significant role in UTSA's research portfolio and are a major focus of the UT System and other top tier universities throughout the nation. With disclosure levels consistently above twice the National average for equivalent levels of research expenditures, UTSA is an engine for San Antonio's innovation ecosystem, and funding from federal, state, and local agencies for translational technology proof of concept (POC)

**Administrator's Statement**

10/17/2016 1:48:35PM

85th Regular Session, Agency Submission, Version 1  
Automated Budget and Evaluation System of Texas (ABEST)

---

**743 The University of Texas at San Antonio**

---

funding has catalyzed development and commercialization of UTSA's discoveries. In addition, as the first university in Texas to win an institutional NSF I-Corps™ award, UTSA is now a leader in coordinating broader access to the National NSF I-Corps™ program, including for student and other non-traditional teams. To foster additional university-industry collaborations, the university's New Venture Incubator (NVI) supports spin-off technology companies on the main campus, the new Entrepreneur-in-Residence program provides targeted commercialization expertise, and the Roadrunner incubator boasts over 100 student-owned and operated businesses as members.

During the 84th Legislative Session, the Core Research Support Fund was established to provide funding to promote increased research capacity for institutions designated as an emerging research university and at this time UTSA was held harmless. Research-based funding is critical to UTSA initiatives to transitioning from an emerging research university to a Tier One research university. Any reduction in funding would impact faculty recruitment and the university's ability to sustain research facilities and optimize resources. UTSA is appreciative of the support provided in the 84th Session and hopes to continue to be granted hold harmless funding in the event any additional reduction in Core Research Support funding is recommended.

**LEGISLATIVE PRIORITIES**

Priority #1: Cyber and Cloud Computing - \$2,500,000 / year  
Method of Financing: General Revenue Fund

In order to best meet the needs of Texas this new special item will build on UTSA's national leadership in cyber security ranked #1 in the U.S. It will also build on UTSA's cloud computing research (only certification center in the U.S. for new Open Cloud project working designs and hardware). This special item will allow UTSA to: 1) assist Texas Government Agencies through the Texas Department of Information Resources in implementing a "Culture of Security", and develop security preparedness (i.e. incident response plans, penetration testing, security assessments, information sharing, and audits); 2) evaluate commercial and/or government security products in an isolated secure cyber testing environment; 3) help small and mid-sized businesses with cyber security guidelines and readiness level certifications to include audits and assessments - this would assist businesses meet standards with the State of Texas to become vendors with the State; and 4) develop and train students and State Agency employees in a unique and hands-on environment through certification preparation and degree programs.

Priority #2: College Completion UTSA - \$495,000 / year  
Method of Financing: General Revenue Fund

UTSA is a Hispanic Serving Institution (HSI) and 45 percent of the undergraduate student population will be the first in their family to earn a bachelor's degree. More than 10,000 undergraduate students at UTSA receive a Pell Grant each year and approximately 71 percent of incoming students receive some form of grant and scholarship. UTSA students face many barriers in completing college and this program will provide the necessary support to improve college completion and serve as a role model for other HSIs.

"College Completion UTSA" has the following four components:

The Roadrunner Retention Grant program will provide micro grants to students at the fee drop stage of registration each semester to help cover modest financial shortfalls impacting the students' ability to pay tuition and fees. Research indicates this is a highly effective best practice. Peer advising services will be added through kiosks, digital applications and phone to both create jobs for students and provide on demand assistance for students navigating college.

The freshman summer bridge program will serve as a student success academy for under resourced and/or first generation admitted students. Through the use of predictive analytics, students who are academically at-risk will be identified to attend a 6-8 week summer session before fall classes.

---

**743 The University of Texas at San Antonio**

---

Math success initiatives will centralize facilities and staffing to support The National Center for Academic Transformation endorsed math emporium models. Although the number of first generation students is increasing at Texas institutions, the level of support services have not grown proportionally. Academic readiness and socioeconomic issues is a significant roadblock to college completion and need to be addressed with large scale support services.

**Priority #3: Restoration of the 4% Non-Formula Reduction**

Method of Financing: General Revenue Fund

The full or partial restoration of the 4% non-formula reductions will be used for research advancement and enhancement initiatives. Our students are our greatest resources and often collaborate with our faculty on various research initiatives. UTSA would invest this funding to increase the number of postdoctoral scholars, support graduate and doctoral students and enhance research support services including, but not limited to, mentorship programs for undergraduate and graduate students in various research programs. Overall this would help UTSA's momentum towards Tier One and allow us to build a stronger foundation for sustainable research growth. There is overwhelming evidence that providing our researchers with top quality research support services, such as research professional development, grant writing support services and mentorship programs can have a significant impact of moving research forward at a university.

**Priority #4: The UTSA Mexico Center - \$100,000 / year**

Method of Financing: General Revenue Fund

The UTSA Mexico Center is an umbrella organization that connects existing, related expertise within the UTSA and other UT System university campus sites to promote cross-disciplinary collaboration on research projects, conferences and symposia, and cultural and academic activities. The center's primary goal is to address and generate transnational dialogue and research on issues that affect the people of Mexico and the United States through collaborative research projects, invited guest lectures, a range of undergraduate and graduate courses, funded research projects, policy reports, and publications in peer reviewed journals and books. Researchers at the UTSA Mexico Center have received grants from The Rockefeller Foundation, the U.S. Small Business Administration, the U.S. Department of Housing and Urban Development, the U.S. Department of Health and Human Services, the Fulbright Association, the National Science Foundation, the City of San Antonio, and local foundations. Research at the Center has focused on language acquisition of infants in bilingual homes, affordable housing, families experiencing deportations, entrepreneurial migrants, border security, and transnational families. State funding would allow the Center to expand its research and teaching activities and generate additional extramural funding to support research and graduate and undergraduate student research assistants.

**Priority #5: Small Business Development Center - \$417,025 / year**

Method of Financing: General Revenue Fund

The Small Business Development Center (SBDC) promotes small business and community economic development through extension services covering the 79-county South-West Texas Border Region, in cooperation with U.S. Small Business Administration and UTSA as regional administrator of the SBDC program. SBDC also promotes the growth, expansion, innovation, increased productivity, and improved management for small business, through activities of individual business counseling and technical assistance, group training seminars and workshops, and student internships. The SBDC served 25,990 small business clients in 2015, and their resultant growth contributed incremental tax revenue of \$41,696,293 million, increased sales/contracts/exports by \$875,919,325 million, created 6,108 new jobs, retained 5,031 jobs, helped access \$323,390,976 million in business growth financing/investments, through a network of 10 SBDC field centers established at UTSA and sub-recipients at Sul Ross State University, SRSU Rio Grande College, Texas A&M International University, UT-RGV, Del Mar College, University of Houston-Victoria, Texas State University, Angelo State University and El Paso Community College. Specialty SBDCs promote international trade, corporate and public contracting, sustainable business, rural business, and technology commercialization. Next biennium goal is to serve 30,000 business clients annually. SBDCs are a proven and efficient means to

**Administrator's Statement**

10/17/2016 1:48:35PM

85th Regular Session, Agency Submission, Version 1  
Automated Budget and Evaluation System of Texas (ABEST)

---

**743 The University of Texas at San Antonio**

---

continue the growth, expansion, innovation, increased productivity and improved management for small businesses in the South-West Texas Border Service Area. A 10 percent increase from the current biennium will assist an additional 3,000 small businesses to receive advising and training with the technology commercialization path, utilize university students, increase sales by exporting, government contracting, accessing capital, and avoiding risks of cyber threats.

Priority #6: South-West Texas Border Small Business Development Center (Rural Initiative) –  
\$650,000 / year  
Method of Financing: General Revenue Fund

The mission of the SBDC Rural Business program (RBP) is to increase the competitiveness of rural communities in the South-West Texas Border region by promoting small business economic activity and investment where corporate expansions and State incentives such as the Enterprise Fund are rarely accessible options, so home-growing Texas rural businesses becomes essential. The RBP assists rural communities with business development projects, strategic planning and resource development, local capacity-building, and infrastructure development.

The RBP has on-going projects for Dimmit and Zavala Counties, IH-35 South Corridor, Uvalde County (eight communities in Atascosa, Frio, La Salle and Medina counties), Eagle Pass, Cuero, Castroville, Bandera, Goliad, Spring Branch/Bulverde, Mission, Aransas County and Jackson County, Pecos, Alpine, and Presidio. The RBP convenes an annual statewide rural development conference co-hosted with the Governor's Office of Economic Development, "The Texas Rural Challenge." Projects help identify new markets for traditional products, sector diversification, business development and infrastructure, and growth strategies. UTSA School of Public Policy in partnership with Shell Oil Company have developed and currently offering Municipal Capacity Building Program that provides governance training and municipal project management facing communities and the region. Resources to implement projects are being leveraged with corporate and SBA funds for communities and businesses served. Many RBP communities are affected by the Eagle Ford and West-Texas Shale developments and face a complex mix of economic challenges and opportunities. This request will enable more than 25 additional rural communities to access RBP capacity building services as well as Rural Community governance training.

Priority #7: Texas Data Center - \$165,000 / year  
Method of Financing: General Revenue Fund

Staffing for State Data Center decreased 3 FTE's following the budget cuts experienced in fiscal years 2010/2011. This reduction has resulted in delays producing population estimates and projections and in responding to Legislative and public requests for information. The budget cuts also resulted in limitations in the production of internet based delivery of demographic and socioeconomic information and data. Increasing the funding by the requested amount will enable the Center in hiring a research scientist and a systems analyst to facilitate more timely production and responsiveness.

The Center fields numerous requests from Legislative Offices and more and more constituents of the Center are accessing information from the Center's internet site. However, current staffing at the Center has limited ability to develop and deliver internet based products in a timely manner.

An increase to the existing special item would allow the State Data Center to: 1) add an experienced full time database/internet systems analyst to advance the delivery of data through the internet; 2) provide for a demographic research scientist to expedite and improve production of data projects; 3) support a reference demographer to help the Center improve efforts to responding to data requests from the Texas Legislature and State Agencies; 4) support/replace some of the State Data Center's aging computing and storage infrastructure.

Automated Budget and Evaluation System of Texas (ABEST)

---

**743 The University of Texas at San Antonio**

---

**TEXAS GRANT PROGRAM**

The TEXAS Grant program is especially important for UTSA's first-generation, low-income students. This particular population often has difficulties with access and affordability. During the 2015-16 award year, UTSA's Texas Grant allocation was reduced by more than \$3 million from the previous year due to a new allocation formula. UTSA awarded all renewal students and as many new students as possible but at reduced awards to ensure we covered tuition and fees with a combination of grants and/or scholarships. We awarded 1,480 initial year students with an average award of \$2,617 in fiscal year 2015-16 compared to 1,921 initial year students with an average award of \$4,098 in fiscal year 2014-15. While we were able to bring students into the pipeline for 2015-16, there were a significant number of students who did not receive funding for the 2015-16 year and the students who did receive funding only received a combination to cover tuition and fees.

The state allocation formula has been adjusted via negotiated rulemaking and UTSA has received an increase in the 2016-17 allocation. Because of the population UTSA serves, we anticipate not being able to offer more than a \$4,000 - \$5,000 average grant to initial year and renewal students. It is also likely some initial year students will not be awarded due to their increased eligibility, demand and need for the grant. Students will still need to find other resources to help fund educational cost beyond tuition and fees. If appropriations are cut for the upcoming biennium, we anticipate another reduction in the average award as well as the total number of students we will be able to award.

By providing tuition and fee grants, student loan debt is reduced for the neediest students in Texas. With a 69 percent overall retention rate for students in the Texas Grant program, continuation of this funding is critical to their ability to stay in school and graduate.

**STATE FUNDING of the HAZLEWOOD ACT BENEFITS**

UTSA supports military personnel and their families and is committed to serving veteran students as we value their service and sacrifice to our nation. The university continues to be recognized as one of the friendliest military universities. Military Times named UTSA, 2016 Best for Vets College. With the passage of SB 93 in 2009, the legacy exemption under the Hazlewood Act has proven more costly than originally projected. UTSA is experiencing an enormous growth of students utilizing Hazlewood legacy exemptions. The financial cost of the Hazlewood legislation that expanded tuition and fees exemption benefits to veterans' dependents have increased significantly, reaching a record high of over \$12.3 million in fiscal year 2016 and it is projected to be \$14.3 million by fiscal year 2017. UTSA appreciates the support provided in the 84th legislative session of almost \$1.8 million to help offset the unrealized tuition revenue. The unrealized tuition and fee revenue due to UTSA's Hazlewood Exemptions has risen over 700 percent since 2009 is expected to total approximately \$73.1 million (FY 2009 through FY 2017). The impact of this legislation is expected to increase as more veterans return to Texas. We encourage the Texas legislature to continue providing funding relief for Hazlewood legacy exemption.

**TEXAS RESEARCH INCENTIVE PROGRAM (TRIP)**

The Texas Research Incentive Program continues to play vital role in UTSA's efforts to transition to a Tier One research University. In FY16 UTSA received about \$5.25 Million from this program which not only provided additional funds for the matching endowments, but also funded 8 new endowed professorships and 1 new endowed research program. The program has been a great incentive in seeking and receiving research funding supports from our various donors. For example, \$4.2 million in research gift from the 80/20 Foundation provided much needed funding to the institution's various research initiatives such as 80/20 Foundation Post-Graduate Research Endowed Fellowship, Open Cloud Institute (OCI) and Center for Innovation and Technology Entrepreneurship (CITE). Currently UTSA has approximately \$10.7 million in unfunded eligible matching gifts due to the backlog. The program has been very successful and effective in increasing UTSA's research private funding efforts. The university hopes funding for the program continues.

---

**743 The University of Texas at San Antonio**

---

#### 4 PERCENT REDUCTION AND 10 PERCENT BIENNIAL BASE REDUCTION

UTSA understands the challenges facing the Texas economy and the request to trim 4% from the 2018-2019 base appropriation level. With the 4% reduction or \$1.03M, it is critical we maintain current levels of funding for our special item appropriations so in order to do that and still meet the requirement to provide a 4% budget reduction we are proposing to eliminate \$355,000 per year of research hold harmless funding that we received in the 84th Legislative Session, keep our Life Sciences Institute whole and minimize the reduction to the other line items to 1.5%. As indicated with our legislative priority #3, we respectfully request full or partial restoration of this funding to continue with research advancement and enhancement initiatives to build a stronger foundation for sustainable research growth.

The university continues to focus on efficiencies and cost containment strategies in order to minimize the cost of an education to our students. Reduction to baseline funding of almost \$2.5 million (10%) will impact the institutions ability to fulfill its mission in the respective programs.

#### CRIMINAL BACKGROUND CHECKS

UTSA's administration policy is to obtain criminal history record information on all finalists considered for appointment to a security sensitive position, as allowed by Texas Government Code Section 411.094, Texas Education Code Section 51.215, and UT System Policy UTS124. The President of UTSA has designated all positions at UTSA to be security sensitive.

#### COST CONTAINMENT INITIATIVES

UTSA annually accesses current processes and activities that can contribute to cost containment and develops plans for increased productivity and efficiency. The University continues to review, re-evaluate, renegotiate contracts, and consolidate services for opportunities to lower cost, improve efficiency and productivity, and maintain safety. UTSA will implement a new procurement software and processes that are expected to drive costs down. Additionally, the university will undertake a review and assessment of budget processes and resource allocations utilizing a more robust set of data driven metrics and analysis.

UTSA will continue the evaluation of job position vacancies, the consolidation of work functions, and the optimization of available resources. UTSA has eliminated several positions over the past year within the Research, Student Affairs, and Business Affairs areas through internal restructuring. UTSA will be conducting an assessment of our organizational structure to optimize resources and services. One example will be an assessment project occurring within our Information Technology division this fall. The institution encourages departments and administrative offices to utilize student workers where feasible to meet the administrative workload and also contribute to student retention and success. Other processes were streamlined through technology advancements which had significant time savings for students and increased administrative staff productivity.

UTSA continues to implement energy and water conservation initiatives to include participating in City Public Service Energy's demand response program, negotiating agreements to reduce annual natural gas by 25 percent, and installing a high efficiency variable speed drive chiller at the University's thermal plant. These initiatives have reduced energy consumption and costs.

# The University of Texas at San Antonio Organizational Chart

## **The University of Texas at San Antonio**

### **President**

*The offices reporting to the President include Government Relations, Legal Affairs & Compliance, and Audit Services. (35 FTE)*

### **Provost and Vice President for Academic Affairs**

*Reporting to the Provost are Deans of the nine colleges: College of Architecture, Construction and Planning, College of Business, College of Education and Human Development, College of Engineering, College of Liberal and Fine Arts, College of Public Policy, College of Sciences, Honors College and the University College. Other areas reporting to the Provost include: Graduate School, Information Technology, Library, Vice Provost for International Initiatives, Vice Provost for the Downtown Campus and Academic and Faculty Support; Vice Provost for Institutional Effectiveness to whom reports Institutional Research, and the Associate Provost for Faculty and Student Diversity and Recruitment. (2,301 FTE)*

### **Vice President for Business Affairs**

*Areas reporting to Business Affairs include: Campus Services, Business Contracts, Financial Affairs, Human Resources, PeopleSoft Support and Sustainment Center, Facilities, and University Police. (577 FTE)*

### **Vice President for Community Services**

*Community Services programs include The Institute for Economic Development, the Office of P-20 Initiatives, the Office of Extended Education, the Institute of Texan Cultures, the UTSA Mexico Center, the Child and Adolescent Policy Research Institute and the Center for Civic Engagement. (163 FTE)*

### **Vice President for Research**

*Areas reporting to Research include: Sponsored Projects Administration, Research Integrity, Research Support, and Research Commercialization. (67 FTE)*

### **Vice President for Student Affairs**

*Areas under Student Affairs include Admissions, Orientation and Family Programs, Financial Aid and Enrollment Services, Office of the Registrar, Student Activities, University Center, Child Development Center, Student Conduct and Community Standards, Housing, Campus Recreation, Counseling Services, Health Services, University Career Center, Disability Services, the Special Events Center, the Student Center for Community Engagement and Inclusion, the Student Leadership Center and Intercollegiate Athletics. (480 FTE)*

### **Vice President for External Relations**

*Areas under External Relations include Alumni Programs, Donor Relations, Development, Operations and Advancement Services, Marketing and Communications. (79 FTE)*

*FTE count is based on 1<sup>st</sup> QTR FY2016 Actual FTE regardless of funding source. It excludes hourly and student employees, other than TA/GA's.*

**STRATEGY DESCRIPTION AND JUSTIFICATION:**

The Instruction and Operations Formula provides funding for faculty salaries, departmental operating expense, library, instructional administration, research enhancement, student services and institutional support. The funds are distributed on a weighted semester credit hour basis. The rate per weighted semester credit hour is established by the Legislature each biennium.

**EXTERNAL/INTERNAL FACTORS IMPACTING STRATEGY:**

Additional Information for this strategy is available in Schedule 9, Special Item Information.

(1) - Formula funded strategies are not requested in 2018-19 because amounts are not determined by institutions.

**STRATEGY DESCRIPTION AND JUSTIFICATION:**

The Infrastructure Support formula distributes funding associated with plant-related formulas and utilities. This formula is driven by the predicted square feet for universities' educational and general activities produced by the Coordinating Board Space Projection Model. The portion of the formula related to utilities is adjusted to reflect differences in unit costs for purchased utilities, including electricity, natural gas, water and wastewater, and thermal energy.

**EXTERNAL/INTERNAL FACTORS IMPACTING STRATEGY:**

Generation of new knowledge that can be translated to the practical benefit of the State of Texas is a critical catalyst fundamental to the growth, development and well-being of our state. Recognizing this, State Senator Leticia Van de Putte and former State Representative Robert Puente, along with the members of the Bexar County legislative delegation H.B. 1716 and its companion bill, S.B. 728, was written during the 77th session of the Legislature to authorize the creation of the San Antonio Life Sciences Institute (SALSI), a joint initiative between the University of Texas at San Antonio (UTSA) and the University of Texas Health Science Center–San Antonio (UTHSCSA).

The mission of the Small Business Development Center is to promote small business and community economic development through extension services covering 79-county South-West Texas Border region, in cooperation with U.S. Small Business Administration and UTSA as regional administrator of the SBDC program. Also to promote the growth, expansion, innovation, increased productivity, and improved management for small business, through activities of individual business counseling and technical assistance, group training seminars and workshops, advocacy, and research information. The SBDC involves students and faculty through structured service-learning and applied research activities to benefit small businesses through our public service mission. The SBDC is tax revenue-neutral certified by the Texas Comptroller and is accredited by the Association of Small Business Development Centers. An accompanying Exceptional Item increase of 10% from the current biennium will assist additional small and start-up businesses with the technology commercialization path utilizing university students and technology programs, and for those small business clients affected by energy market fluctuations.

------	-------------	----------	----------	----------	---------	---------

The mission of the SBDC Rural Business program (RBP) is to increase the competitiveness of rural communities in the South-West Texas Border region by promoting small business economic activity and investment where corporate expansions and State incentives such as the Enterprise Fund and Emerging Technology Fund are rarely accessible options, so home-growing Texas business becomes essential. The RBP assists rural communities with business development projects, strategic planning and resource development, local capacity-building, implementation of rural infrastructure, as well as SBDC individualized business assistance to access capital and expand market reach, such as export and contracting opportunities. The Eagle Ford Shale play has spiked business activity and the need for sustainable economic development to unprecedented levels. An accompanying Exceptional Item request seeks 10% expansion to reach more rural communities seeking RBP assistance beyond current capacity. This rural initiative SBDC Special Item is certified revenue-neutral contingent, currently being updated with the Comptroller's Rev-Estimating Division.

**STRATEGY DESCRIPTION AND JUSTIFICATION:**

The University of Texas at San Antonio (UTSA) is dedicated to the advancement of knowledge through research and discovery, teaching and learning, community engagement, and public service. As an institution of access and excellence, UTSA embraces multicultural traditions and serves as a center for intellectual and creative resources as well as a catalyst for socioeconomic development and the commercialization of intellectual property for Texas, the nation and the world.

The Core Research Support Fund is established to provide funding to promote increased research capacity at those institutions designated as an emerging research university under the Higher Education Coordinating Board's (THECB) accountability system.

Funding is to be expended for the support and maintenance of educational and general activities, including research and student services that promote increased research capacity.

A legislatively determined amount of funding is appropriated to eligible institutions as follows: (1) 50 percent based on the average amount of restricted research funds expended by each institution per year for the three preceding state fiscal years as reported to THECB; and (2) 50 percent based on the average amount of total research funds expended by each institution per year for the three preceding state fiscal years as reported to THECB.

-------	-------

**DESCRIPTION / JUSTIFICATION:**

This special item will specifically assist Texas Government Agencies, through the Texas Department of Information Resources, to prepare for cyber incidents through the development of incident response plans; penetration testing, security assessments, information sharing, audits, training and education. It will also help small and mid-sized businesses meet State standards as vendors. This special item will develop and train the workforce in cyber security through certification preparation and degree programs and evaluate commercial and/or government security products in an isolated secure cyber testing environment.

**EXTERNAL/INTERNAL FACTORS:**

Additional information for this strategy is available in Schedule 9, Special Item information.

**DESCRIPTION OF IT COMPONENT INCLUDED IN EXCEPTIONAL ITEM:**

The IT Component will include both software and hardware. The software will include several items that will be needed for various aspects of the assessment process and technical training. The hardware will include computers and internet access. The project also includes development time, training, and assessments.

**IS THIS IT COMPONENT RELATED TO A NEW OR CURRENT PROJECT?**

NEW

**PROPOSED SOFTWARE EXAMPLES (Client-side, server-side, Midrange and Mainframe)**

With full funding, the following is a list of penetration software that will be needed in various aspects during an assessment: Metasploit Pro, Wireshark Pro, w3af,

**4.A. Exceptional Item Request Schedule**  
 85th Regular Session, Agency Submission, Version 1  
 Automated Budget and Evaluation System of Texas (ABEST)

DATE: 10/17/2016  
 TIME: 1:48:54PM

Agency code: 743

Agency name:  
**The University of Texas at San Antonio**

CODE	DESCRIPTION	Excp 2018	Excp 2019
------	-------------	-----------	-----------

Netsparker, Back Track, Nessus, Cain & Abel, Acunetix, Social Engineering Toolkit, Nmap, Cobalt Strike license, and Kali toolkit.

**PROPOSED HARDWARE EXAMPLES (Desktop, Laptop, Tablets, Servers, Mainframes, Printers and Monitors )**

With full funding, proposed hardware includes: high performance laptop computers, routers, cabling, a high performance desktop computer with high performance graphics cards, wifi pinapple, pwnie express, computing storage, and hot spots for remote internet access.

**DEVELOPMENT COST AND OTHER COSTS**

Development costs for the cyber security initiatives are included in the full time and part time salaries. These costs are associated with the development of training courses and preparation for audits, assessments, and meetings to customize initiatives for the State of Texas.

**TYPE OF PROJECT**

Security

**ALTERNATIVE ANALYSIS**

The project could be scaled down to only provide small business assistance and training, as well as cybersecurity training with no hands on components.

**ESTIMATED IT COST**

2016	2017	2018	2019	2020	2021	2022	Total Over Life of Project
\$0	\$0	\$105,000	\$105,000	\$0	\$0	\$0	\$210,000

**DESCRIPTION OF ANTICIPATED OUT-YEAR COSTS :**

Ongoing program costs and administrative costs will include training, assessments and audits being conducted for small businesses, state agencies and jurisdictions throughout the state. The majority of the development will be completed in year 1 allowing the culture of security program to be implemented in years 2 - 5. Some additional development will be required as the cyber threat is continually evolving. Additional development will be needed to ensure all activities are relevant and up to date. There will be no changes in positions.

<b>FULL-TIME EQUIVALENT POSITIONS (FTE):</b>		2.00	2.00

**DESCRIPTION / JUSTIFICATION:**

It is imperative for UTSA to improve retention and graduation rates in order to meet the expectations of the Texas Higher Education Coordinating Board. This new special item request will help UTSA launch "College Completion UTSA". This initiative is a coordinated approach to reducing barriers for under-resourced and/or first generation students. It will focus on high impact practices that yield results for the State of Texas by increasing the number of graduates, overall contributing to a more competitive Texas on a global scale. The initiative has four components: 1) Roadrunner Retention Grants; 2) on demand peer advising; 3) freshman summer bridge program; and 4) math success initiatives.

**EXTERNAL/INTERNAL FACTORS:**

Additional information for this strategy is available in Schedule 9, Special Item information.

**DESCRIPTION OF ANTICIPATED OUT-YEAR COSTS :**

We anticipate that costs would remain consistent following the biennium. This is largely due to the fact that staff salaries, mini-grants and math success initiatives would have a similar costs per fiscal year as the program works with students throughout their undergraduate experience. The retention grants, student staffing for peer advising and availability of on-campus math success initiatives all have a stable per year costs with expenditures like staffing and programmatic costs.

Through the tracking of the academic success of the students that are served through a grant, advising, math success or the freshman summer bridge program, the programs will be evaluated and restructured. The four components of College Completion UTSA can be rebalanced to focus funding on the highest contributors to student success. These improvements will be budgeted to fall within the stated allocation. However, it is difficult to plan for any future merit increases or benefit costs in 2020 and beyond.

<b>FULL-TIME EQUIVALENT POSITIONS (FTE):</b>		20.00	20.00

**DESCRIPTION / JUSTIFICATION:**

The full or partial restoration of the 4% non-formula reductions will be used for research advancement and enhancement initiatives. Our students are our greatest resource and often collaborate with our faculty on various research initiatives. UTSA would invest this funding to increase the number of postdoctoral scholars, support graduate and doctoral students and enhance research support services including, but not limited to, mentorship programs for undergraduate and graduate students in various research programs. Overall this would help UTSA's momentum towards Tier One and allow us to build a stronger foundation for sustainable research growth.

**EXTERNAL/INTERNAL FACTORS:**

There is overwhelming evidence that providing our researchers with top quality research support services, such as research professional development, grant writing support services and mentorship programs can have a significant impact of moving research forward at a university.

**DESCRIPTION OF ANTICIPATED OUT-YEAR COSTS :**

We would expect these costs to continue into the future to continue to help support research capacity

**DESCRIPTION / JUSTIFICATION:**

The UTSA Mexico Center is an umbrella organization that connects existing, Mexico- related expertise within the UTSA and other UT System university campus sites to promote cross-disciplinary collaboration on research projects, conferences and symposia, and cultural and academic activities. The Center's primary goal is to address and generate transnational dialogue and research on issues that affect the people of Mexico and the United States through collaborative research projects, invited guest lectures, a range of undergraduate and graduate courses, funded research projects, policy reports, and publications in peer reviewed journals and books. The Center organizes presentations open to the public on key policy concerns, cultural events, and educational opportunities.

**EXTERNAL/INTERNAL FACTORS:**

Additional information for this strategy is available in Schedule 9, Special Item information.

**DESCRIPTION OF ANTICIPATED OUT-YEAR COSTS :**

The estimated out-year costs for the UTSA Mexico Center are  $\$100,000 + 3\% (\$3,000) = \$103,000$  for year 2020,  $\$103,000 + 3\% (\$3,090) = \$106,090$  for year 2021; and  $\$106,090 + 3\% (\$3,182.70) = \$109,273$  for year 2022. These figures are based on an anticipated 3% increase in merit or longevity raises for the positions of program co-ordinator and graduate student researchers which are estimated implementation and administrative costs. There would be no change in the 1.5 equivalent positions related to the out-year costs. All services would be in-house. Invited speakers needing service agreements would be paid through other funds.

**DESCRIPTION / JUSTIFICATION:**

Served 25,990 small business clients in 2015, and their resultant growth contributed incremental tax revenue of \$41.7 million, increased sales/contracts/exports by \$875.9 million, created 6,108 new jobs, retained 5,031 jobs, helped access \$323.4 million in business growth financing/investments, through a network of 10 SBDC field centers established at UTSA and sub-recipients at Sul Ross State University (Alpine), SRSU Rio Grande College (Eagle Pass), Texas A & M International University(Laredo), UT-Rio Grande Valley, Del Mar College (Corpus Christi),University of Houston-Victoria, Texas State University (Austin), Angelo State University (San Angelo) and El Paso Community College. Specialty SBDCs promote international trade, corporate and public contracting, rural business, and technology commercialization to diversify the regional economy.

Next biennium goal is to serve 30,000 business clients annually. SBDCs are a proven and efficient means to continue the growth, expansion, innovation, increased productivity and improved management for small businesses in the South-West Texas Border Service Area. These continued activities across the SBDC region result in improved performance of small business clients, enhanced economic growth, and full participation by women and minority owned businesses, rural businesses, contractors, export businesses, and Veteran owned businesses. Business support for the mix of opportunities and challenges due to Eagle Ford and West-Texas Shale developments will be handled through SBDC branch office in Carrizo Springs, and SBDCs surrounding the play in San Antonio, Laredo, Corpus Christi, Victoria, San Angelo, and Alpine.

**DESCRIPTION / JUSTIFICATION:**

The Rural Business Program (RBP) began in 2010 to assist communities grow and diversify. It has successfully completed projects in Dimmit and Zavala Counties, IH-35 South Corridor, Uvalde County (8 communities in Atascosa, Frio, La Salle and Medina counties), Eagle Pass, Castroville, Bandera, Goliad, Cuero, Spring Branch/Bulverde, Mission, Aransas County and Jackson County. Projects help identify new markets for traditional products, sector diversification, business development and infrastructure, and growth strategies. UTSA Architecture faculty and students are engaged to assist rural communities prepare comprehensive strategic and land-use plans. UTSA Public Policy in partnership with Shell Oil Co. offer Municipal Capacity Building Program sessions that provide governance and municipal project management training. Leveraged resources include corporate and SBA funds for communities and businesses served. The RBP also convenes an annual statewide rural development conference, "The Texas Rural Challenge," co-hosted with the Governor's Office of Economic Development.

Many RBP communities affected by the Eagle Ford (EFS) and West-Texas Shale developments face a complex mix of economic challenges and opportunities. The RBP assists by advising affected businesses and local leaders to make sound decisions for sustainable economic development. The RBP Carrizo Springs office serves as an EFS business information center, offers a Bid2Biz Pipeline tool to match oilfield buyers and suppliers, and has supported labor, housing and economic impact studies to inform the public on EFS dynamics. RBP technical assistance fills rural communities' economic development capacity gaps. Funding for 2018-19 will sustain and expand service to many neglected areas of the state, and help rural Texas businesses achieve greater success to grow jobs and investment for their communities. This Exceptional Item increase request will enable 25 additional rural communities to access RBP services.

**EXTERNAL/INTERNAL FACTORS:**

**DESCRIPTION / JUSTIFICATION:**

Staffing for the State Data Center (SDC) was down approximately 3 FTEs following fiscal cuts post recession. SDC received partial restoration of reduced funds in FY 14/15 and was able to add one FTE. This reduction in force has resulted in delays in production of population estimates and projections, in responding to legislative and public requests for information, and has slowed production of internet based delivery of demographic and socioeconomic information and data. Increasing the special item to the amount requested the State Data Center will be able to hire another research scientist and a systems analyst to facilitate more timely production and responsiveness. Additionally, our computing and storage infrastructure is aging and most elements will be going out of warranty in the coming year. Increasing funds to the level requested will allow us to begin updating computing and storage capacity and will better enable reliable and secure capacity to produce population estimates and projections and to serve demographic and socioeconomic data and maps to our constituent and will allow us to rehire a position

**EXTERNAL/INTERNAL FACTORS:**

Additional information for this strategy is available in Schedule 9, Special Item information.

32.9%	Special Trade	32.7 %	43.4%	10.7%	\$6,487,141	\$14,960,952	55.3 %	55.2%	-0.1%	\$4,205,759	\$7,616,827	
23.7%	Professional Services	23.6 %	29.5%	5.9%	\$222,981	\$756,559	23.6 %	18.7%	-4.9%	\$140,660	\$751,951	
26.0%	Other Services	24.6 %	15.4%	-9.2%	\$2,428,821	\$15,742,159	24.6 %	10.2%	-14.4%	\$1,663,454	\$16,278,766	
21.1%	Commodities	21.0 %	28.9%	7.9%	\$6,898,396	\$23,865,667	21.1 %	30.9%	9.8%	\$9,120,273	\$29,552,658	
	<b>Total Expenditures</b>		<b>29.2%</b>		<b>\$16,311,351</b>	<b>\$55,923,953</b>		<b>27.7%</b>		<b>\$15,257,048</b>	<b>\$55,081,469</b>	

**B. Assessment of Fiscal Year 2014 - 2015 Efforts to Meet HUB Procurement Goals**

**Attainment:**

UTSA attained 5 of the 6 statewide HUB goals and 5 of 6 agency goals in fiscal year 2014. UTSA attained 3 out of 6 of the statewide HUB goals, and 2 of 6 agency goals in fiscal year 2015. For fiscal year 2014 & 2015, The Office of the Comptroller of Public Accounts ranked UTSA # 10 in the Top 25 Agencies Spending More than \$5 Million with Largest Percentage Spent with HUBs.

**Applicability:**

All categories were reported as applicable because HUB reported expenditures in Heavy Construction even though they are normally not reported because we are an educational institution which never procure these services for our wide range of projects.

**Factors Affecting Attainment:**

Competition in all procurement categories has increased due to a challenging economy which has resulted in less HUB vendors being awarded. In addition, cost saving measures such as utilizing group cooperatives and other strategic contracts with minimum to no utilization of HUB partners under these agreements, has been a factor in attainment. Not all contract decisions are subject to the agency's control and many are unique or specialized contract agreements.

**"Good-Faith" Efforts:**

The objective of UTSA Good Faith Effort and Goals has been fully implemented in Fiscal Year 2014 & 2015 State of Texas TAC 34 Part 1 Chapter 20 Subchapter B Rule 20.15-Item C.

- Finding HUB vendors that are ready, willing and able.
- Support within the development of bids and specifications.
- Evaluation of HUB Subcontracting Plan to ensure vendors are upholding bid requirements.

**6.A. Historically Underutilized Business Supporting Schedule**  
85th Regular Session, Agency Submission, Version 1  
Automated Budget and Evaluation System of Texas (ABEST)

Date: 10/17/2016  
Time: 1:48:55PM

---

Agency Code: 743 Agency: The University of Texas at San Antonio

- Answer questions that may arise from different bid solicitations with written justification.
- Assist with the marketing, registration, and updating of UTSA HUB vendor internal database.
- 2. Assist department with information and procedures over the HUB Program and HUB Vendors.
- Hosted and attended HUB Forums to meet and share contracting opportunities at UTSA.
- Trained staff, new and existing buyers of HUB Program.
- HUB Program Information on UTSA goals and procedures of program.
- 3. The HUB Outreach program objectives are to become knowledgeable of HUB Vendors capabilities and to inform the HUB community of business opportunities with UTSA.
- HUB Vendor Shows
- Hosted and attended HUB Vendor Fairs and Economic Opportunity Forums.
- Presented at HUB events on contracting opportunities.

**743 The University of Texas at San Antonio**

---

**Special Item:**        1        **Texas Pre-Engineering Program (TexPREP)**

**(1) Year Special Item:**                1990  
Original Appropriations:    \$150,000

**(2) Mission of Special Item:**

The mission of the Texas Prefreshman Engineering Program (TexPREP) is to provide a challenging academic 7 to 8 week summer program designed to prepare middle and high school students for success in advanced studies leading to careers in STEM (science, technology, engineering and mathematics) fields. This special item helps support a collaboration of partner colleges and universities across the state of Texas (35) which is available to all students with an emphasis on increasing the number of women and minorities in STEM jobs.

**(3) (a) Major Accomplishments to Date:**

San Antonio PREP, founded in 1979, expanded seven years later to include other Texas institutions and became TexPREP. Since 1979, 38,135 middle school and high school students have successfully completed at least one summer component of TexPREP. Over the past thirty-seven (37) years, TexPREP has continued to expand across the state and it now operates on thirty-five (35) community and senior college campuses in fifteen (15) Texas cities. In 2015, TexPREP served 4,360 middle and high school participants; 81% were minorities and 53% were women, as the program's focus continues to be on students who have been traditionally underrepresented in the STEM fields.

TexPREP is a proven model of success as is confirmed by the program's results. Based on the 2013 survey, program results (over time) indicate that 81% go to college, 52% of college attendees graduate from college and more significantly, nearly one out of every two students who participate (44%) in TexPREP are STEM majors. In addition, 67% of the STEM graduates are students traditionally underrepresented in those fields and 48% of the STEM graduates are female.

**(3) (b) Major Accomplishments Expected During the Next 2 Years:**

In order to increase the number of students who major in STEM fields, TexPREP will be:

1. Transitioning from a traditional classroom instruction delivery system to a project-based learning (PBL) model.
2. Strengthening its Year IV curriculum by collaborating with industry leaders to add "career tracks" in cyber-security, nano-technology, water-science, and computer assisted design, all critical industries in Texas. These career tracks will integrate rigorous academics with relevant PBL activities identified by industry leaders as necessary for real-world application. This will provide students with the framework of knowledge, skills, and abilities required by professionals and practitioners, reducing the amount of training students will need when entering the workforce.
3. Adding Computer science to all four years of TexPREP with the goal of having students pass the College Board CS Principles exam leading to college credit.
4. Increasing enrollment during this time by serving over 4,500 to 5,000 students per year.
5. Adding Systems Thinking and Dynamic Modeling to all four years of TexPREP to enhance the critical thinking and problem solving skills of the students.

**(4) Funding Source Prior to Receiving Special Item Funding:**

Texas Higher Education Coordinating Board

---

**743 The University of Texas at San Antonio**

---

**(5) Formula Funding:**

N

**(6) Startup Funding:**

N

**(7) Transition Funding:**

N

**(8) Non-general Revenue Sources of Funding:**

The program is funded by in-kind contributions (\$1,015,936); local funding (\$133,247); state grants (\$417,892); federal grants (\$54,000); private foundation funding (\$180,000); corporate funding (\$258,000); gifts from individual contributors (\$1,800); independent school district payment of tuition (\$121,500). Local funding is also secured by partner colleges and universities to complement state and other funding.

**(9) Consequences of Not Funding:**

Removal of TexPREP funding would eliminate this program at 35 colleges and universities in Texas and would negatively impact the progress made to date and in the future that TexPREP has made in closing the gaps and increasing the number of students who are not graduating from college, but the number who are graduating with STEM degrees and pursuing STEM careers, which is an area critical to the continued economic success of Texas. TexPREP expects to serve over 9,000 students over the next two years of which 40% will be first generation students. In January 2007, the Perryman group (TPG) reported that Texas lags several other populous states in production of science and engineering degrees awarded. If this pattern persists, the competitiveness of the state will erode in the future as will the STEM workforce needed to meet the needs of industry impacting the standard of living of all Texas constituents.

---

---

**743 The University of Texas at San Antonio**

---

**Special Item:**     2        **San Antonio Life Sciences Institute**

**(1) Year Special Item:**             2010  
Original Appropriations:   \$4,000,000

**(2) Mission of Special Item:**

Translating new knowledge to the practical benefit of the State of Texas is a critical catalyst to the growth, development and well-being of the state. Former State Senator Leticia Van de Putte and former State Representative Robert Puente, along with the members of the Bexar County legislative delegation introduced legislation during the 77th session to create the San Antonio Life Sciences Institute (SALSI), a joint initiative between The University of Texas at San Antonio & The University of Texas Health Science Center at San Antonio. The institute is designed to establish collaborative activities between public and private institutions leading to the overall enhancement of research, teaching and service missions; promote collaboration; and enable initiatives to stimulate biomedical and biotechnology industry growth that foster the commercialization of the research. SALSI's goal is to synergistically enhance the relationship between the universities and public/private partners.

**(3) (a) Major Accomplishments to Date:**

The biomedical/biotechnology industry offers opportunity for UTSA and UTHSCSA to develop university/industry partnerships and become major drivers of these industries in San Antonio and to stimulate the South Texas economy. Partnerships with the Southwest Research Institute (SwRI), Texas Biomedical Research Institute (TBRI) and the San Antonio Military Health System (SAMHS) have driven the expansion of new scientific knowledge throughout Texas and have enhanced the research, teaching and service missions. SALSI efforts have enabled technologies and innovations targeting patient care and health promotion and supported early and conceptual stages of project development. SALSI has generated joint doctoral programs in Biomedical Engineering and Translational Science. Several centers have been created including the Vaccine Development Center the Center for Innovation in Drug Discovery. In addition, the San Antonio Medical Mycology Cluster and the Medical Data Analytics and Visualization Cluster have led to extensive publications, patent and copyright filings and the training and support of undergraduate and graduate students. The SALSI Academy provides extensive opportunities for professional development of faculty and postdoctoral scholars continue through robust training programs and networking opportunities. Through SALSI UTSA and UTHSCSA have worked cooperatively to enhance research core facilities in a manner that fosters collaboration and reduces duplication of resources.

**(3) (b) Major Accomplishments Expected During the Next 2 Years:**

New joint initiatives will be launched within the SALSI Academy to enhance interdisciplinary research collaborations, significantly raise our international research profile and competitiveness, and foster excellence and innovation for both institutions. SALSI in the next 2 years will also focus efforts to strengthen strategic partnerships within the San Antonio biomedical/biotechnology community to advance areas where expertise and facilities are well established and build collaborations that significantly contribute to solutions for challenges facing healthcare in Texas and around the nation. Aligning to the Presidential Brain Health Initiative SALSI will support strategic hiring aiming to recruit the nation's highest caliber faculty who will lead San Antonio to international recognition in the area of brain health and data analytics. SALSI will foster collaboration in the biomedical research community between military researchers, industry and academia. SALSI will also establish a new Bioinformatics Core to address analytical needs in the area of Big Data and will fund undergraduate internships, postdoctoral scholars, and graduate student research in neuroscience and medical data analytics. To further advance these areas, the SALSI Academy will host highly visible conferences and partner engagements, promoting local capabilities and expertise to a national and international audience.

---

**743 The University of Texas at San Antonio**

---

**(4) Funding Source Prior to Receiving Special Item Funding:**

SALSI was established in 2003 with initial cash investment of \$4.5M from UTSA (\$1), UTHSCSA (\$1M), and The University of Texas System (\$2.5M), as well as \$1.25M of in-kind funding.

**(5) Formula Funding:**

N

**(6) Startup Funding:**

N

**(7) Transition Funding:**

N

**(8) Non-general Revenue Sources of Funding:**

In its first three years of existence, UTSA and its partners along with the UT System contributed a total of \$4.5 million cash (UTSA and UTHSCSA each contributed \$1M, the UT System contributed \$2.5M), another \$2 million in cash for the new joint Bioinformatics/Computational Biology Program, as well as another \$1.25 million of in kind funding towards this program. The success of SALSI resulted in philanthropic funding in the amount of another \$1 million from Mr. Dan Parman and a community benefit to establish the Joseph and Cindy Krier Endowed chair for SALSI. We expect that the partner institutions will continue to provide both real and in kind contributions to SALSI.

**(9) Consequences of Not Funding:**

SALSI enhances research funding at all partner institutions and provides new advanced degree opportunities for students. The biomedical/biotechnology industry offers a unique opportunity for UTSA and UTHSCSA to develop university/industry partnerships, to help San Antonio and South Texas become major players in future industries, and to become major drivers of the San Antonio/South Texas economy. SALSI fosters collaboration and alignment where there would be none; it provides appealing incentives in the form of seed funding for researchers and educators at institutions working on similar problems. SALSI's platform and model has been duplicated successfully throughout the UT System and can be adopted across Texas. Without legislative support, future opportunities for continued leveraging across the State of Texas will be compromised as both institutions stretch their budgets. SALSI has had significant success which was reflected in the Report of the Special Advisory Group to the University of Texas System Board of Regents on the "Feasibility of Merging [UTSA] with [UTHSCSA]." The Special Advisory Group concluded that an expanded, well-funded SALSI is the best vehicle to help UTSA successfully move toward Tier One stature. No doubt, the impact of SALSI is substantial to our growing biomedical community. With new legislative funding the SALSI program will continue to catalyze the highly successful collaborative research and education programs between UTSA and UTHSCSA.

**743 The University of Texas at San Antonio**

---

**Special Item: 3 Small Business Development Center SBDC**

**(1) Year Special Item:** 1990  
Original Appropriations: \$200,000

**(2) Mission of Special Item:**

The mission of the Small Business Development Center is to promote small business and community economic development through extension services covering 79-county South-West Texas Border region, in cooperation with U.S. Small Business Administration and UTSA as regional administrator of the SBDC program. Also to promote the growth, expansion, innovation, increased productivity, and improved management for small business, through activities of individual business counseling and technical assistance, group training seminars and workshops, advocacy, and research information. The SBDC involves students and faculty through structured service-learning and applied research activities to benefit small businesses through our public service mission. The SBDC is tax revenue-neutral certified by the Texas Comptroller and is accredited by the Association of Small Business Development Centers. An accompanying Exceptional Item increase of 10% from the current biennium will assist recovery for those small business clients most affected by the energy market fluctuations, and also expand technology commercialization capability.

**(3) (a) Major Accomplishments to Date:**

Served 28,024 small business clients in 2015, and their resultant growth contributed incremental tax revenue of \$41.7 million, increased sales/contracts/exports by \$875.9 million, created 6,108 new jobs, retained 5,031 jobs, helped access \$323.4 million in business growth financing/investments, through a network of 10 SBDC field centers established at UTSA and sub-recipients at Sul Ross State University (Alpine), SRSU Rio Grande College (Eagle Pass), Texas A & M International University(Laredo), UT- Rio Grande Valley, Del Mar College (Corpus Christi),University of Houston-Victoria, Texas State University (Austin), Angelo State University (San Angelo) and El Paso Community College. Specialty SBDCs promote international trade, corporate and public contracting, rural business, and technology commercialization.

**(3) (b) Major Accomplishments Expected During the Next 2 Years:**

Serve 30,000 small business clients annually with impacts generated via home-growing Texas businesses and jobs. SBDCs are a proven and efficient means to continue the growth, expansion, innovation, increased productivity and improved management for small businesses in the South-West Texas Border service Area. These continued activities across the SBDC region result in improved performance of small business clients, enhanced economic growth, and full participation by women and minority owned businesses, rural businesses, contractors, export businesses, and Veteran owned businesses. Business support for the mix of opportunities and challenges due to Eagle Ford and West-Texas Shale developments will be handled through SBDC branch office in Carrizo Springs, and SBDCs surrounding the play in San Antonio, Laredo, Corpus Christi, Victoria, San Angelo, and Alpine. Technology commercialization efforts will help diversify the regional economy.

**(4) Funding Source Prior to Receiving Special Item Funding:**

None

**(5) Formula Funding:**

N

---

**743 The University of Texas at San Antonio**

---

**(6) Startup Funding:**

N

**(7) Transition Funding:**

N

**(8) Non-general Revenue Sources of Funding:**

Primarily federal grants over the biennium FY 18 and FY19 from U.S Small Business Administration and some user fees for training activities.

**(9) Consequences of Not Funding:**

"As the only comprehensive public research university for the San Antonio metropolitan region and the aspiring flagship university of South Texas, UTSA has a responsibility to serve the community through our mission. UTSA has a responsibility to serve the community through our missions of teaching, research, and public service. The SBDC program fulfills the mission of learning through teaching lifelong business management skills for small business owners, fulfilling the mission of discovery through research projects that impact economic development in the South-West Texas region, and fulfilling public service to South-West Texas by engaging resources that stimulate economic development throughout the region. Demand for economic development via home-growing Texas businesses and jobs is as strong as ever. SBDCs are a proven and efficient means to continue the growth, expansion, innovation, increased productivity and improved management for small businesses in the South-West Texas Border service area. With the loss of funds to support business development extension services in the 79-county South-West Texas Border Region, reduced client services, staff position terminations and student learning activities would be affected commensurately with funding reductions also. This would affect all 10 partner-institutions as sub-recipients of UTSA.

"

---

743 The University of Texas at San Antonio

---

**Special Item:** 4 **Institute of Texan Cultures**

**(1) Year Special Item:** 1988  
Original Appropriations: \$2,302,308

**(2) Mission of Special Item:**

The Institute of Texan Cultures gives voice to the experiences of people from across the globe who call Texas home, providing insight into our past, present, and future. Specifically, the UTSA Institute of Texan Cultures produces exhibits, programs, and special events, as well as teacher training opportunities for the benefit of Texas students, educators, and citizens that celebrate the state's rich cultural heritage and draw lessons from the cultural, economic, industrial, financial, and social contributions of Texans from around the world.

**(3) (a) Major Accomplishments to Date:**

1) Provided services to more than 265,000 individuals across TX; 2) Hosted 29 exhibits, two traveling exhibits, and two virtual exhibits on varying topics including Tejano influence in Texas, civil rights, the Sikh community, genocide, César E. Chávez, Martin Luther King, Jr., and World Wars I and II; 3) Delivered thematic guided tours to 57,283 students, teachers, and parents; 4) Produced 156 programs including 40+ public programs, 42 educator workshops, and 50+ presentations, serving 50,000+ students and educators; 5) Increased online resources including 18 lessons for TX teachers and a Collections blog; 6) Expanded educator pre-service workshops; 7) Added 41 oral histories to the collection; 8) Partnered with three faculty to conduct research at the museum; 9) Provided work/intern opportunities for 43 students in collections, research, development, education, administration, and communications; 10) ITC staff taught the first sections of the new Museum Studies course in support of the UTSA Museum Studies minor; 11) Continued service to underserved audiences with regular free admission programs; 12) Participated in more than 20 community events and presented at five professional conferences to enhance statewide presence; 13) Identified new revenue streams including special event parking and wedding rentals; and 14) Bolstered a development program that now includes annual, corporate, and planned giving, endowments, memberships, and private foundation support.

**(3) (b) Major Accomplishments Expected During the Next 2 Years:**

1) Property improvements that will increase foot traffic at least 25%; 2) Development of a new website with full mobile functionality and improved access to museum resources; 3) Preparation for a capital campaign to enhance museum exhibitions and financial self-sustainability; 4) A branding program to rename the museum and reinforce its place as the preeminent resources on culture in Texas; 5) An enhanced traveling exhibit program and accompanying materials that will serve schools, museums, and municipalities across Texas; 6) Introduction of a new continuing education credit program for Texas educators; 7) Expansion of the Tex-Kit program that will place museum resources in the hands of Texas educators and students; 8) Continued use of Internet and mobile technology to increase number of resources immediately available to Texas educators and students; and 9) Continued facilitation of state-wide professional development opportunities for teachers on use of primary and secondary sources in the classroom.

**(4) Funding Source Prior to Receiving Special Item Funding:**

**(6) Startup Funding:**

N

**(7) Transition Funding:**

N

**(8) Non-general Revenue Sources of Funding:**

Exhibition, program, and special event admissions; retail sales, facility rental, membership sales, and private and corporate giving.

**(9) Consequences of Not Funding:**

100% of the special item appropriation supports staff salaries. Any reduction\* will result in job losses, which will subsequently: a) reduce the number of exhibits, programs, and special events the museum is positioned to deliver locally and statewide by approximately 25%; b) reduce the number of 4th and 7th grade students the museum will be able to serve locally and statewide by approximately 25%; c) reduce the number of teacher development and teacher continuing education courses offered locally and statewide by approximately 50%; d) reduce the number of hours the museum can operate by more than 14%; e) reduce the number of undergraduate and graduate interns and work study students the museum can supervise by approximately 60%; f) negatively impact city and state tourism revenues; g) negatively impact City and State efforts to enhance quality of life cultural amenities for corporate recruitment efforts; and j) severely limit capacity at a time when social issues of race relations and diversity are at the forefront of state and national dialogues. \*Approximate percentages based on 4% and 10% reduction proposals.

---

---

743 The University of Texas at San Antonio

---

**Special Item:** 5 South-West Texas Border Network SBDC

**(1) Year Special Item:** 2010  
**Original Appropriations:** \$1,213,169

**(2) Mission of Special Item:**

The mission of the SBDC Rural Business program (RBP) is to increase the competitiveness of rural communities in the South-West Texas Border region by promoting small business economic activity and investment where corporate expansions and State incentives such as the Enterprise Fund are rarely accessible options, so home-growing Texas business becomes essential. The RBP assists rural communities with business development projects, strategic planning and resource development, local capacity-building, implementation of rural infrastructure, as well as SBDC individualized business assistance to access capital and expand market reach, such as export and contracting opportunities. The Eagle Ford and West-Texas Shale plays have disrupted business activity and pushed the need for sustainable economic development to unprecedented levels. An accompanying Exceptional Item request seeks \$650,000 to provide rural capacity and municipal training to reach an additional 25 rural communities seeking RBP assistance beyond current capacity. This rural initiative SBDC Special Item is certified revenue-neutral contingent upon certification with the Comptroller's Revenue-Estimating Division.

**(3) (a) Major Accomplishments to Date:**

The Rural Initiative (RBP) began in FY2010, assists communities grow and diversify such as projects with Dimmit and Zavala Counties, IH-35 South Corridor, Uvalde County (eight communities in Atascosa, Frio, La Salle and Medina counties), Eagle Pass, Castroville, Bandera, Goliad, Cuero, Spring Branch/Bulverde, Mission, Aransas County and Jackson County. The RBP convenes an annual statewide rural development conference co-hosted with the Governor's Office of Economic Development "The Texas Rural Challenge." Projects help identify new markets for traditional products, sector diversification, business development and infrastructure, and growth strategies. UTSA Architecture faculty and students have also been engaged to assist rural communities prepare comprehensive strategic and land-use plans. UTSA School of Public Policy in partnership with Shell Oil Company have developed and currently offering Municipal Capacity Building Program that provides governance training and municipal project management for communities and the region. Resources to implement projects are being leveraged with corporate and SBA funds for communities and businesses served.

**(3) (b) Major Accomplishments Expected During the Next 2 Years:**

Many Texas rural communities often lack the economic development capacity and need technical assistance, information and resources which the RBP offers in a hands-on way. Funding for 2018 and 2019 will sustain and expand positive economic impact to many neglected areas of the state, and help rural Texas businesses and communities achieve greater success to grow jobs and investment for their communities. An increase of \$650,000 will serve an additional 25 rural communities to access RBP services.

**(4) Funding Source Prior to Receiving Special Item Funding:**

No dedicated funding existed to extend SBDC services to rural communities beyond the 10 main service locations in larger cities.

**(5) Formula Funding:**

N

---

**743 The University of Texas at San Antonio**

---

**(6) Startup Funding:**

N

**(7) Transition Funding:**

N

**(8) Non-general Revenue Sources of Funding:**

Primarily grants and corporate sponsorships and some user fees for training activities.

**(9) Consequences of Not Funding:**

Rural communities and businesses would not have the same access to small business development services as the larger Texas cities. State economic development funding investments from the Texas Enterprise Fund and other state incentives are predominantly applicable to larger cities and academic research centers, so a less balanced approach to support rural community economic development would result if this Special Item funding were to be eliminated or reduced.

---

---

**743 The University of Texas at San Antonio**

---

**Special Item: 6 Institutional Enhancement**

**(1) Year Special Item:** 2000  
Original Appropriations: \$4,288,157

**(2) Mission of Special Item:**

The University of Texas at San Antonio (UTSA) is dedicated to the advancement of knowledge through research and discovery, teaching and learning, community engagement and public service. As an institution of access and excellence, UTSA embraces multicultural traditions and serves as a center for intellectual and creative resources as well as a catalyst for socioeconomic development and the commercialization of intellectual property for Texas, the nation and the world.

**(3) (a) Major Accomplishments to Date:**

UTSA is committed to the success of its nearly 29,000 students who are enrolled in the nine colleges and the Graduate School concentrating their studies in 70 bachelor's, 68 master's and 24 doctoral degree programs. These programs center on research, knowledge development, building leadership skills, participation in community service activities, and helping students become successful in their chosen career fields. More than 58% of UTSA students come from groups underrepresented in higher education; many are first in their families to attend a college or university. UTSA has initiated a concerted effort to improve graduation rates over the past several years. As a result of this effort we have experienced close to a 19% increase in the six year graduation rate since 2000 to a new rate of 53.4%. We feel that the additional investments in student success will continue to provide improvement in our completion rates. UTSA is also focusing on our recruiting efforts and currently 56% of our first-time freshmen have graduated from the top 25% of their high school class. Overall through our outreach efforts and the Carnegie Foundation designation for Community Engagement, we are impacting San Antonio and the global community through teaching and research, public service, volunteerism, civic partnerships and economic development.

**(3) (b) Major Accomplishments Expected During the Next 2 Years:**

UTSA has transitioned from a historical access mission to one that translates access into academic success. To promote undergraduate student success, the university has implemented several coordinated student success initiatives that combine predictive data analytics with the level of student guidance needed to improve retention, shorten time to graduation and increase number of degrees awarded. These initiatives include: 1) better preparation of our first-year students prior to their first fall term; 2) providing a variety of financial support options based on merit and need; 3) freshman cohorts with common classes with instructor, advisor, peer mentor and graduate teaching assistant to enhance support and bonding; 4) academic support outside of the classroom; and 5) career counseling and professional development experiences to prepare student to enter their chosen career. UTSA continues to raise funds to: 1) create and strengthen undergraduate scholarships, graduate fellowships and other programs designed to foster student success; 2) attract, support and retain world-class faculty members and researchers; 3) create a vibrant, world-class campus life with top-tier cultural, academic and athletic programs; and 4) establish and advance centers of knowledge that address pressing global challenges.

**(4) Funding Source Prior to Receiving Special Item Funding:**

None

**(5) Formula Funding:**

N

---

**743 The University of Texas at San Antonio**

---

**(6) Startup Funding:**

N

**(7) Transition Funding:**

N

**(8) Non-general Revenue Sources of Funding:**

None

**(9) Consequences of Not Funding:**

Our future student success initiatives to improve retention, shorten the time to graduation and increasing the number degrees awarded would be directly impacted without this funding. In addition, loss of funding would impact our efforts to attract world-class faculty members and researchers which in turn would impact our overall enrollment. With any loss of faculty FTE, we would expect increases in our student faculty ratio or provide fewer course sections to meet the demands of our growing student population.

---

---

**743 The University of Texas at San Antonio**

---

**Special Item: 7 Texas State Data Center**

**(1) Year Special Item:** 2006  
Original Appropriations: \$327,398

**(2) Mission of Special Item:**

To make demographic, economic and related data readily available and accessible to Texas legislators, the public and private sectors and to produce annual population estimates for counties and places in Texas, biennial projections of the population by age, sex and race/ethnicity for Texas and counties in Texas for use by Texas state agencies, the Texas Legislature, and private-sector concerns for personnel, facility and budgetary planning, and to provide expert analysis and interpretations of demographic and related trends impacting Texas.

**(3) (a) Major Accomplishments to Date:**

The State Data Center (SDC) has provided ready access to previously difficult to obtain data on a wide variety of demographic, economic and socioeconomic factors and provided the most accurate estimates and projections available for any state in the United States in a very cost effective manner. They have also provided ongoing interpretations of the implications of demographic trends for Texas public and private-sector service provision. Over the biennium, \$300,000 of these funds is provided through a revenue-neutral rider, contingent upon certification by the Comptroller of Public Accounts.

**(3) (b) Major Accomplishments Expected During the Next 2 Years:**

During the next two years, SDC will work actively to assess, analyze, and interpret data from the U.S. Census Bureau as relevant to Texas. SDC will produce two sets of annual population estimates and an additional set of population projections for use by the public and private sectors in Texas. The program will continue to disseminate written and other direct contact products to more than 15,000 Texans and will provide internet services (data and information) to approximately 4 million users per year for each year of the biennium. With exceptional item funding, SDC will work to create sub-place estimates and sub-county projections by the second year of the biennium. SDC will work to break out the Asian population in the population estimates and projections. SDC will expand and improve access to data and reports on the SDC internet site. Finally, personnel from these programs will provide ongoing interpretations of the implications of demographic and related changes for Texas, and fulfill request for demographic analyses from state and legislative agencies.

**(4) Funding Source Prior to Receiving Special Item Funding:**

This item includes an increment for activities previously funded through an interagency agreement with the Texas Legislative Council.

**(5) Formula Funding:**

N

**(6) Startup Funding:**

N

**(7) Transition Funding:**

N

---

**743 The University of Texas at San Antonio**

---

**(8) Non-general Revenue Sources of Funding:**

None

**(9) Consequences of Not Funding:**

The demand for more timely and accessible demographic data and demographic analysis has increased steadily over the period where the reduction in State Data Center special item forced reduction in staff. State agencies utilize SDC population and estimates and delays in our release of these data impact either the timeliness of some agencies efforts or force them to use older and perhaps less accurate demographic data. The State Data Center products (population estimates and projections) are used by other state Agencies (TxDOT, TWC, TLC, TWC, DADS, TWDB, etc) for a range of purposes including distribution of Federal resources. Delays in production of population estimates and projections is likely to occur with FTE reductions and this is likely to impact the work of other State agencies.

---

---

743 The University of Texas at San Antonio

---

**Special Item:** 8      **Research Hold Harmless**

**(1) Year Special Item:**                      2016  
Original Appropriations:    \$710,000

**(2) Mission of Special Item:**

The original purpose of the Research Hold Harmless fund is to continue to provide the same level of support to UTSA for faculty instructional excellence and research that was provided in previous biennium's with the combination of the Texas Competitive Knowledge Fund (TCKF) and the Research Development Fund (RDF). The Research Hold Harmless funds are added to the Core Research Support Funds to promote increased research capacity at UTSA.

**(3) (a) Major Accomplishments to Date:**

For the past two years, leadership at UTSA has focused on it's faculty by providing them with the tools necessary to increase the quantity and quality of proposal submissions. UTSA has also launched a targeted recruiting effort to attract faculty members with established research programs and associated extramural funding. Focus areas for recruitment surround the identified areas of research excellence, such as cyber security and neuroscience. UTSA has also focused efforts to enhance the research and communications infrastructure across campus. Through leveraging a dedicated task-force of key stakeholders, UTSA has already optimized research space and enhanced critical components such as high speed internet, instrumentation and core computing facilities. UTSA has streamlined business operations within core research facilities and has added four new cores to help our faculty advance experimental learning for students, while advancing their overall research programs. The results have been increases in total awards for FY 2015 to \$52 million and estimated total awards for FY 2016 of \$60 million.

**(3) (b) Major Accomplishments Expected During the Next 2 Years:**

UTSA plans to continue adhering to this research framework assisting in advancing towards our goal to become a Tier One research institution by 2025. Through the UTSA Gold Star Initiative, the university has dedicated \$40 million to hire 60 top tier faculty over a four year period. This boost in research intensive faculty will help the university reach the total of a sustained \$75 million in annual research expenditures by the year 2020. Commercialization of intellectual property and entrepreneurship are also impacting UTSA's research portfolio and are a major focus of the UT System and other top tier universities through the nation.

**(4) Funding Source Prior to Receiving Special Item Funding:**

Texas Competitive Knowledge Fund and Research Development Fund that was replaced with the Core Research Support. The amount provides the same level of funding to UTSA for the 2016 and 2017 biennium.

**(5) Formula Funding:**  
N

**(6) Startup Funding:**  
N

**(7) Transition Funding:**  
N

---

**743 The University of Texas at San Antonio**

---

**(8) Non-general Revenue Sources of Funding:**

These funds along with the Core Research Support Funds promote increased research capacity for UTSA

**(9) Consequences of Not Funding:**

Research funding is critical to UTSA initiatives to transitioning from an emerging research university to a Tier One research university. Any reduction in funding for research would impact faculty recruitment and the university's ability to sustain research facilities and optimize resources.

---

---

**743 The University of Texas at San Antonio**

---

**Special Item:**     9        **Cyber Security and cloud Computing**

**(1) Year Special Item:**           2018  
Original Appropriations:   \$5,000,000

**(2) Mission of Special Item:**

The National Preparedness Report 2016 presents the preparedness levels of core capabilities reported by the States and Territories. Cybersecurity has been the lowest rated core capability five years in a row, with jurisdictions reporting only 13% proficiency in cybersecurity. This special item will specifically assist the State of Texas and their government agencies, through the Texas Department of Information Resources, to prepare for cyber incidents through the development of incident response plans, penetration testing, security assessments, information sharing, audits, training, and education. It will also help small/mid-sized businesses meet State standards as vendors by providing cybersecurity awareness training that helps them to understand basic cybersecurity practices usually not incorporated into their operations. This special item will develop and train the workforce in cyber security through certification preparation and degree programs to expand cybersecurity expertise in the State of Texas, and evaluate commercial and/or government security products in an isolated secure cyber testing environment to determine if security products do what is promoted. States across the nation have insufficient funding to address the cybersecurity threat as it continually becomes more sophisticated and the States are experiencing more targeted attacks than ever before. This funding will distinguish the State of Texas as the leader in cybersecurity preparedness.

**(3) (a) Major Accomplishments to Date:**

UTSA's national leadership in cybersecurity is well established and major accomplishments underscore how our efforts have played a driving force in building the State and National cyber infrastructures through research and the provision of services. UTSA has been ranked the #1 program in cybersecurity in the U.S. in 2014 and #2 graduate program in cybersecurity in 2016. UTSA's cloud computing research is the only certification center in the U.S. for new Open Cloud project designs and hardware. UTSA's Center for Infrastructure Assurance & Security (CIAS) has established itself as a premier provider of security assessments services, e.g., the entire UT System, highlighting the scale of the effort. Since 2002, the CIAS has worked with 7 states and 21 cities around the country in cyber training and exercises to prepare for cyber incidents. UTSA/CIAS was also selected as the lead for the National Cybersecurity Preparedness Consortium; and chosen by the Department of Homeland Security to lead the Standards Organization for Information Sharing and Analysis Organizations, to develop the national information sharing guidelines and standards. The CIAS, in partnership with UTSA's Institute for Economic Development, which operates the #1 ranked Small Business Development Center (SBDC) in the U.S, has also established itself as a premier service provider/gateway to educate new/small businesses in best practices (cyber security training, operations, and workforce development).

**(3) (b) Major Accomplishments Expected During the Next 2 Years:**

---

**743 The University of Texas at San Antonio**

---

Leading the Information Sharing and Analysis Organization Standards Organization effort will allow UTSA to better prepare states and the nation for cyberattacks by building the nation's ecosystem for sharing cyber indicators and threat information. Working with industry and states/communities to establish Information Sharing and Analysis Organizations, CIAS will address the State's desire for creating such an entity. Also, CIAS will work with the Texas Air National Guard to develop and deliver a Leadership Cybersecurity Training course and will expand the cybersecurity training to a hands-on course for guardsmen. This will allow CIAS to provide a critical service to the National Guard as it continues to develop their role as a cybersecurity resource in the State. CIAS will also develop comparable courses to benefit the small/medium-size business sector to better prepare for cyber incidents. The Open Cloud Computing Institute's capability to conduct additional research will expand, be incorporated into UTSA coursework, and keep the UTSA degree programs cutting edge. The UTSA's IED and SBDC will further build relationships and work with the Small Business Association to offer cybersecurity, workforce develop and additional economic development programs. The CIAS will expand outreach programs to promote a "culture of cyber security" throughout the state (using games, competitions, workshops, seminars, and courses to reach all age groups and sectors of the State).

**(4) Funding Source Prior to Receiving Special Item Funding:**

None

**(5) Formula Funding:**

N

**(6) Startup Funding:**

N

**(7) Transition Funding:**

Y

**(8) Non-general Revenue Sources of Funding:**

None

**(9) Consequences of Not Funding:**

Cybersecurity preparedness in the State of Texas is a critical capability. The threat to the state's (in terms of government, academia, and industry) critical cyber infrastructures grow daily. Loss of personal and proprietary information for citizens of Texas and business alike has occurred and will continue to occur in the absence of a stronger, across-the-board, cyber security program. There are tremendous capabilities in this state and we have the potential to lead the nation as the go-to state for those wishing to reside in a state that promotes cyber security (affecting economic growth). Texas is not the only state working towards becoming the example for others to follow and if the state does not act quickly it will lose the head-start we have enjoyed to date. This could result in companies deciding to settle in another state with a strong security program as opposed to locating within Texas. Without funding the consequences would include the State of Texas losing out on very cost effective ways to utilize the expertise and talent within the Cybersecurity field, as represented through UTSA's reputation in Cybersecurity (ranked #1 program in cybersecurity in the U.S. in 2014), workforce development through the SBDC (ranked #1 Small Business Development Center in the U.S), and the degree programs offered at UTSA which are producing a substantial pool of talented cyber security professionals (ranked #2 graduate program in cybersecurity in 2016).

---

**743 The University of Texas at San Antonio**

---

**Special Item:**     10     **College Completion UTSA**

**(1) Year Special Item:**             2018  
Original Appropriations:   \$990,000

**(2) Mission of Special Item:**

It is imperative for UTSA to improve retention and graduation rates in order to meet the expectations of the Texas Higher Education Coordinating Board. This new special item request will help UTSA launch "College Completion UTSA". This initiative is a coordinated approach to reducing barriers for under-resourced and/or first generation students. It will focus on high impact practices that yield results for the State of Texas by increasing the number of graduates, overall contributing to a more competitive Texas on a global scale. The initiative has four components: 1) Roadrunner Retention Grants; 2) on demand peer advising; 3) freshman summer bridge program; and 4) math success initiatives.

**(3) (a) Major Accomplishments to Date:**

UTSA is a Hispanic Serving Institution (HIS) and over 40% of the total population are first generation students. More than 10,000 undergraduate students at UTSA receive a Pell Grant each year and approximately 71% of incoming students receive some form of grant and scholarship. UTSA's graduation rates have experienced a 19% increase in the six year graduation rate since 2000 to a new rate of 53.4%. In addition 56% of our first-time freshmen have graduated from the top 25% of their high school class.

**(3) (b) Major Accomplishments Expected During the Next 2 Years:**

The funding will be used to: 1) Create the Roadrunner Retention Grants to provide micro grants to students at the fee drop stage of registration each semester to help cover modest financial shortfalls impacting the students' ability to pay tuition and fees. At times a small amount could make a big difference in a student's decision. Research indicate this is a highly effective best practice; 2) Peer advising services will be added through kiosks, digital applications and phone to both create jobs for students and provide on demand assistance for students navigating college; 3) the freshman summer bridge program will serve as a student success academy for under resourced and/or first generation admitted students. Through the use of predictive analytics, students who are academically at-risk will be identified to attend a 6-8 week summer session for fall classes; 4) math success initiatives will centralize facilities and staffing to support NCAT endorsed math emporium models. With this funding we will continue to work on graduation rates and the success of our students.

**(4) Funding Source Prior to Receiving Special Item Funding:**

None, this is a new program

**(5) Formula Funding:**

N

**(6) Startup Funding:**

Y

---

**743 The University of Texas at San Antonio**

---

**(7) Transition Funding:**

N

**(8) Non-general Revenue Sources of Funding:**

None

**(9) Consequences of Not Funding:**

With current levels of State funding, UTSA has not been able to adequately address these barriers to completion for this population. Although the number of first generation students is increasing at Texas institutions, the level of support services have not grown proportionately. Academic readiness and socioeconomic issues are a significant roadblock to college completion and need to be addressed with large scale support services. Increasing the number of skilled graduates will enhance Texas' global competitiveness. College completion is a victory for the entire community. Without funding, fewer under resourced/first generation students will graduate.

---

---

**743 The University of Texas at San Antonio**

---

**Special Item:** 11      **The UTSA Mexico Center**

**(1) Year Special Item:**                      2018  
Original Appropriations:      \$200,000

**(2) Mission of Special Item:**

The mission of the UTSA Mexico Center is to promote knowledge and understanding of Mexico and U.S.-Mexico relations; establish cross-disciplinary/cross-border collaborations on research projects and activities; address policy issues affecting the U.S.-Mexico Border region; support student and faculty exchanges with Mexico; coordinate conferences, publications, seminars, lectures, and performances on issues/ideas on border and cross-border affairs; develop and submit externally funded grant proposals. The Center receives visitors from Mexico, coordinates and promotes research and teaching on Latin American Studies and supports student research and publication on Mexico and Latin America. The Center provides workshops for U.S. and Mexican teachers to improve English instruction and student achievement. The Center collaborates with Universidad Nacional Autónoma de México (UNAM), Universidad Autónoma del Estado de México, Universidad Autónoma de Guadalajara, Universidad Veracruzana, University of Monterrey, Monterrey Tech, El Colegio de la Frontera Norte, Universidad Autónoma de Nuevo Leon, Instituto de México in San Antonio, Asociación de Empresarios (AEM), and Mexicans and Americans Thinking Together.

**(3) (a) Major Accomplishments to Date:**

The UTSA Mexico Center has generated external funding from the U.S. Department of Housing and Urban Development, the Rockefeller Foundation, the Mellon Foundation, the U.S. Department of Education, the U.S. Small Business Administration, and the U.S. Department of Health and Human Services. The Center has funded over 30 student research projects on Mexico; hosted Fulbright conferences and fellows; published collaborative books on border issues with U.T. Press, Notre Dame Press, the U. of Veracruz, UNAM, Texas A&M Press; hosted bi-national conferences on how to do business in the U.S., families on the U.S.-Mexico border, democracy in Mexico, immigration, dual language learners, and early childhood education. The Center collaborated on a study of bilingual infant language acquisition with University of Washington, Seattle Brain Science Institute. The Center is a member of the Interuniversity Program for Latino Research and is currently funded by HUD to study effects of Eagle Ford Shale oil & gas exploration on affordable housing and colonias in South Texas. Center scholars presented academic papers at local, regional, and national conferences. The Center submitted grant proposals to the National Science Foundation; Minerva Initiative; Administration for Children and Families; U.S. Dept. of Health & Human Services. Two recent grants from the Institute of Education Science and the Mellon Foundation will provide \$4,000-\$5,000 stipends for 84 UTSA undergraduates over 5 years.

**(3) (b) Major Accomplishments Expected During the Next 2 Years:**

A publication on border culture is in progress to be published by Texas A&M Press; a workshop on improving school success for dual language learners is being planned in collaboration with Stanford University and the Educational Testing Service (ETS); efforts are underway to mentor underrepresented populations to pursue graduate studies in education science and the humanities; a photo exhibit on the impact of the Eagle Ford Shale oil and gas exploration on South Texas affordable housing is planned at the Institute for Texan Cultures; and the Center will host an international conference on Latino research in May 2017. The Center is organizing an international book presentation at the UTSA Institute for Texan Cultures and one at the University of the Americas in Puebla, Mexico. Publications on affordable housing, leadership development in rural communities, dual language learners, and economic development in South Texas are in planning stages. Grants from the U.S. Dept. of Education and the Mellon Foundation are expected to fund 84 undergraduate UTSA students to pursue graduate studies in educational science and humanities fields. Staff will continue to submit proposals to the National Science Foundation and ongoing requests for proposals. The Center sponsors work-study students, interns, McNair scholars to work at the Center. Co-publications with UTSA graduate and undergraduate students are in progress.

---

**743 The University of Texas at San Antonio**

---

**(4) Funding Source Prior to Receiving Special Item Funding:**

Primarily external: federal agencies, foundations, local charities, individual donors, grants (HUD, Health & Human Services, Dept of Education) Student stipends, Bank of America endowed grad student positions.

**(5) Formula Funding:**

N

**(6) Startup Funding:**

N

**(7) Transition Funding:**

Y

**(8) Non-general Revenue Sources of Funding:**

All funding for the UTSA Mexico Center has been from non-general revenue sources of funding, including grants from the U.S. Department of Health and Human Services, the U.S. Department of Housing and Urban Development, The U.S. Department of Education, the U.S. Small Business Administration, The Rockefeller Foundation, the San Antonio Charity Ball Association, the Scanlan Family Foundation, and individual donors.

**(9) Consequences of Not Funding:**

The funds requested are to assure the continuation of staff and graduate student researchers at the UTSA Mexico Center. While the Center has been successful in generating federal and other external funding in nationally competitive proposals, state funding would assure that staff skilled in managing grants and organizing events and publications remain at the Center and would allow the Center to expand its activities, solicit additional external funding, produce additional publications, and establish stronger, more permanent collaborations with Mexican institutions, and state and local agencies. The UTSA Mexico is establishing a strong academic reputation throughout Mexico and the United States which brings recognition to UTSA and the state of Texas and assists with tier one aspirations for UTSA by bringing in competitive external funding.

---
