Superior Vision's SmartAlert Partnering For Total Wellness

Overview

Superior Vision's SmartAlert provides an easy way to foster communication between your employees, their eye care provider and their primary care physicians or specialists. Vision exams can play an important role in the accurate diagnosis and monitoring of conditions which may impact your total wellness or larger health issues. Our SmartAlert program provides an important conduit for sharing eye exam findings, at member discretion, with their primary care physician or wellness plan administrator.

An Ounce of Prevention

Superior Vision network doctors are specially trained to identify and treat:

- Diabetic retinopathy
- Cataracts
- Diseases of the cornea
- Glaucoma
- Macular degeneration
- A variety of infections and retinal disorders.

Routine eye exams can also uncover general health conditions that may go otherwise undetected. Early detection and treatment can dramatically affect the lifelong impact of certain serious conditions, helping your employees achieve total wellness. Superior Vision's SmartAlert makes it easy for members to share important health information with all their physicians – eye doctors, primary physicians, and specialists.

SmartAlert = Simple

Easy-to-Use Forms

Superior Vision's SmartAlert uses easy-to-complete forms to gather and share information between members and their physicians. All necessary forms can be downloaded and printed from the Superior Vision web site.

Voluntary and Confidential

SmartAlert confidentiality fully complies with HIPAA guidelines, as both elements of the program are voluntary by members and their health and vision care providers. Copies of completed Superior Vision SmartAlert communication forms can be retained by employees for their personal health records.

No Enrollment Fees

Our SmartAlert program is offered at no cost to Superior Vision members. No enrollment is required – all necessary forms are available to our members and in-network providers via our secure web portals.

To learn more about Superior Vision's SmartAlert, vision disorders and treatments, and information about maintaining healthy vision, we invite you to visit our Vision Care Learning Center at www.SuperiorVision.com.
