With DeltaCare USA, you and your family will enjoy many new features including:

Expanded business hours/toll-free customer service

Out-of-area emergency coverage

Orthodontic treatment in progress provision

Specialty care and authorizations

If you require treatment from a specialist, your DeltaCare USA general dentist will coordinate any referrals for you.

Delta Dental must pre-authorize any dental services, with the exception of emergency treatment, that are not performed by your DeltaCare USA general dentist. Please refer to your plan booklet for specific details about your plan.

Dual coverage/Coordination of benefits

If your spouse has coverage with another dental plan, you or your family members may be covered by both dental plans.*

- We do not coordinate benefits with the other plan when you receive treatment from your DeltaCare USA general dentist. However, if you receive authorized treatment from a specialist (such as an oral surgeon), we will coordinate benefits with the other carrier.
- Ask your specialist to submit the other plan's explanation of benefits with the DeltaCare USA claim form and we'll take it from there.

Orthodontic treatment in progress

DeltaCare USA has an orthodontic treatment-in-progress provision that allows new enrollees to continue treatment with their current orthodontist, as long as the enrollee is in active treatment started under his or her previous employer-sponsored dental plan. Enrollees are responsible for all copayments and fees subject to the provisions of their prior dental plan.**

* Please review your plan booklet for specific details about your plan's coordination of benefits, including rules for determining primary and secondary coverage.

**Please refer to your plan booklet for specific coverage details.

Transitioning from another plan?

Your DeltaCare USA plan covers treatment started and completed only after your plan's effective date of coverage. If you have any dental treatment in progress when your coverage begins — root canals in progress, teeth prepared for crowns and dentures for which an impression has been taken — those expenses are not covered by your DeltaCare USA plan. However, the DeltaCare USA plan has no exclusion for pre-existing dental conditions or missing teeth.
