Please Note: The $100.00 Annual Deductible restarts on 09/01.

For any questions or more information about your prescription plan, please log in anytime at express-scripts.com. You can also call the Member Services number on the back of your Express Scripts member ID card.
MEMBER ID CARD

- You’ll need it if you visit a retail pharmacy
- It has all the information you’d need in an emergency
- The customer service telephone number that you can call 24 hours a day is located on the back of the card
- Downloading the Express Scripts mobile app will give you access to an electronic card and the ability to locate a pharmacy, price your medication, and set up reminder notifications
BENEFITS OF HOME DELIVERY

• Good option for long-term medications

• Save 12 monthly trips to a retail pharmacy

• 24/7 pharmacist access from the comfort of your own home

• Free and safe delivery of your medicine in secure packaging that ensures your privacy

• Automatic refills and renewals

• Refill, renew and track your order using the Express Scripts® mobile app or online at express-scripts.com

• It’s easy to start: call the number on the back of your Express Scripts member ID card
### Long-Term Medication Pharmacy Network

- Long-term prescriptions are taken over a sustained period of time to treat chronic conditions
- Avoid paying full cost by getting a three-month (90-day) supply of your long-term medicine instead of a one-month (30-day) supply
- You have two ways to get your long-term prescriptions – convenient home delivery from Express Scripts Pharmacy® or a retail pharmacy in your network

• Proactive patient monitoring through regular assessments and touch points

• Exclusive mobile and online support tools for patients in specific therapy classes

• Care coordination with your entire healthcare team

• Patient assistance program coordination available
A program that monitors certain prescription drugs to get you the medicine you require while reducing costs

It makes sure you’re getting a prescription that is suitable for the intended use and covered by your prescription plan

If your pharmacist tells you that your prescription needs a prior authorization (PA), it simply means that more information is needed to see if your plan covers the drug. Only your physician can provide this information

To get the Prior Authorization started, please contact your doctor’s office
• The **right medicine in the right amount**

• Express Scripts will make sure that you get the drug in the amount – or quantity – considered safe and effective by the U.S. Food & Drug Administration (FDA)

• You’ll get the right amounts for good health and the health of your family

• **There is nothing you need to do differently** – you’ll get the recommended amount, which should last until it’s time for a refill
• Step therapy is in place to make sure you get safe and proven-effective medicine for your condition – at the lowest possible cost to you and your plan sponsor

• Here’s how step therapy works:
  • A panel of independent licensed physicians, pharmacists and other medical experts work with Express Scripts to recommend medicines for the step therapy program
  • **First-step medicines** – Generic and lower-cost brand-name medicines. They are proven to be safe and effective, as well as affordable
  • **Second-step medicines** – Typically brand-name medications. They are best suited for patients who do not respond to first-line medicines
Physicians and pharmacists routinely review the medications on your drug list that are covered by your prescription plan.

Generic and brand-name drugs (preferred drugs)

- Generics typically cost less than brand-name drugs.
- Preferred drugs are proven to work in the same way as their more expensive counterparts.
- You can still fill a prescription for a non-preferred drug, but you’ll have a higher copayment.
- Certain medications are excluded – which means they are not covered at all.
- Talk with your doctor about moving from nonpreferred and excluded drugs to generic and preferred drugs.

DRUG LIST
• Before leaving your doctor’s office, ask either your doctor or the nurse, “Is there a generic for that?”

• Review all of your medicines regularly with a doctor or pharmacist to see if new options are available

• Use the Express Scripts® mobile app or visit express-scripts.com to find a generic or price a medication
THE EXPRESS SCRIPTS® MOBILE APP

Download it for free
Search for “Express Scripts” & use the same username and password to access the mobile app and express-scripts.com

Pharmacy info
Price medications between pharmacies & locate a pharmacy near you
