What is a health advocate?

The University of Texas, through Blue Cross and Blue Shield of Texas and the UT SELECT program, provides access to you and your dependents to an all-around benefits specialist and personal health care resources. Health Advocates are part of an integrated concierge and care management solution included in your benefits!

The health advocate is assigned to you and your covered family members. This way, you all will have a familiar person to talk to whenever you may have a question, concern or health issue needing to be addressed.

How do you and/or your dependent reach a health advocate?
