RIDER NO. 7 (A) TO AVAILABLE UNIVERSITY FUND APPROPRIATION

The text of Rider No. 7(a) to the Available University Fund Appropriation in Senate Bill 1, 85th Legislature, Regular Session, is as follows:

“Reporting Requirements for System Office Operations and System Initiatives.

- a. In addition to the reporting requirements in Rider 5, The University of Texas System and Texas A&M University System shall report to the Legislative Budget Board no later than December 1 of each fiscal year additional information regarding the use of the Available University Fund for system office operations and system initiatives for the two previous fiscal years, the current fiscal year, and two fiscal years (projected). The report shall include the following:
 - (1) Available University Fund support and maintenance allocations and expenditures for system office operations and system initiatives by activity (which must include an activity for the Board of Regents), including the object of expense detail for each activity, the number of full-time equivalent (FTEs) funded by the Available University Fund in each activity, a detailed description of the purpose and authority for each activity, and a reconciliation between Available University Fund allocations and expenditures each fiscal year including the resulting Available University Fund surplus or deficit;
 - (2) A detailed listing of the role and function of any FTEs included in the Board of Regents activity;
 - (3) A listing of funds outside of the Available University Fund used for each activity each fiscal year; and
 - (4) Any additional information requested by the Legislative Budget Board “

USES OF THE AVAILABLE UNIVERSITY FUND BY THE UNIVERSITY OF TEXAS SYSTEM

BACKGROUND

The *Texas Constitution* (Article VII, Section 18) gives The University of Texas System Board of Regents (Board of Regents) the authority to determine the amount distributed to the Available University Fund (AUF) from the return on investment assets of the Permanent University Fund (PUF), subject to specific constitutional restrictions. The *Texas Constitution* requires that the AUF be appropriated for the payment of the principal and interest due on the bonds backed by the PUF and for the support and maintenance of The University of Texas at Austin and The University of Texas System Administration. “Support and maintenance” is an expansive phrase that describes funding for U. T. Austin and the U. T. System Administration to function and carry out their respective responsibilities. System Administration responsibilities are provided by general law. An AUF expenditure that benefits institutions other than U. T. Austin qualifies as support and maintenance of U. T. System Administration if it reasonably furthers a responsibility of U. T. System Administration, such as providing oversight and coordination of institutional activities or providing services to U. T. System institutions. The AUF may not be used for routine programmatic or operating expenses of institutions other than U. T. Austin.

USES OF THE AVAILABLE UNIVERSITY FUND BY U. T. SYSTEM

The AUF is used for four primary purposes:

- (1) to pay interest and principal due on PUF bonds,
- (2) to provide for academic excellence and other support for U. T. Austin
- (3) to provide for the expenses of U. T. System Administration, and
- (4) to fund U. T. System initiatives.

PUF Debt Service

Under the *Texas Constitution*, the first call on AUF funds is debt service on PUF bonds that provide capital improvements, equipment and library books or materials for the System’s eligible institutions and for U. T. System Administration. Capital improvement needs of the institutions are extensively evaluated on an ongoing basis and incorporated into a six-year Capital Improvement Plan.

U. T. Austin

Pursuant to the terms of the *Texas Constitution*, U. T. Austin is the only U. T. System institution other than U. T. System Administration eligible to directly receive resources from the AUF for support and maintenance purposes. According to Regents' Rule 80303, AUF transfers to U. T. Austin for program enrichment (academic excellence) purposes must not be less than 45% of the projected U. T. System share of the net divisible AUF annual income and distributions.

U. T. Austin depends on academic excellence funds from the AUF for needs such as library enhancement; enhancement of academic department operations; specialized science, engineering, and computing equipment; scholarships and fellowships; and support of special units. These special units conduct research, disseminate research and scholarship information to the general public, and provide public service.

The Board of Regents previously committed an additional AUF allocation toward the creation and sustainment of the Dell Medical School at U. T. Austin. This commitment was to be equal to the greater of \$25 million annually or a 3% increase in the annual distribution to U. T. Austin from 45% to 48%.

For Fiscal Year 2018, the Board of Regents approved a total allocation of AUF to U. T. Austin equal to 53% of the projected U. T. System share of the net divisible AUF annual income and distributions with the understanding that this amount is now inclusive of allocations for the Dell Medical School.

U. T. System Administration

Use of AUF to support U. T. System Administration is a constitutional design intended to reduce reliance on general revenue for U. T. System Administration, allowing the legislature to redirect general revenue to other state priorities. The U. T. System Administration depends on funding from the AUF for needs such as major repairs and rehabilitation, equipment, maintenance and operation, salaries and support for units that provide assistance to the Board of Regents and the U. T. institutions.

U. T. System Administration is the central administrative office providing leadership and administrative support for System institutions. U. T. System Administration adds value by undertaking certain central responsibilities that result in greater efficiency or higher quality than could be achieved by the individual institutions or that fulfill legal requirements. Among the areas requiring more specialized expertise, which can be more efficiently provided by a central administrative unit, are compliance management, internal audit, legal counsel, intellectual property protection, governmental relations, policy planning and development for academic and health-related programs, and various business operation support activities. The business operations include financial reporting,

historically underutilized businesses program, budget, finance, human resources, employee benefits, security, planning and construction of facilities, information resources, and real estate. U. T. System Administration also provides support for the development programs of the institutions.

U. T. System Initiatives

The AUF is used to support operational programs at U. T. System Administration and various strategic priorities and initiatives undertaken by the Board of Regents, all of which benefit System institutions and System students. As with the many operational programs provided by System Administration, each of the system initiatives either provides a service across a broad number of institutional campuses or provides oversight and coordination of activities that benefit a broad number of campuses and the students of those campuses. Each of these system initiatives has been reviewed against the applicable constitutional standards to ensure that each is an appropriate expenditure of the AUF. In addition, for each initiative the Board of Regents is asked to make a finding of fact that expenditure of AUF is appropriate under U. T. System Administration's responsibilities to coordinate the activities of the U. T. institutions.

U. T. System has provided appropriate notification to the Legislative Budget Board prior to the Board of Regents taking action on System Initiatives as required by Rider 8 of the AUF appropriation within the General Appropriations Act.

REPORTING AUF SUPPORT AND MAINTENANCE ALLOCATION FOR SYSTEM OFFICE OPERATIONS AND SYSTEM INITIATIVES

The information reported for each activity in both System office operations and System initiatives includes AUF support and maintenance allocations, General Revenue and other sources of funds labeled as “institutional funds”. General revenue includes only funding for System office operations and state paid benefits. The information reported as institutional funds reflects other U. T. System expenditures, including revolving funds expended related to operations except for the claims and related costs on insurance funds managed by U. T. System. The revolving funds presented would normally be eliminated as part of the annual financial report (AFR) preparation process and represent a difference in presentation between this analysis and amounts in the AFR.

Each activity includes a detailed description of the purpose and authority for each activity. Please refer to the AUF report for additional information on each of these activities.

**AVAILABLE UNIVERSITY FUND AND OTHER SOURCES
SUPPORT AND MAINTENANCE ALLOCATIONS AND EXPENDITURES
FOR SYSTEM OFFICE OPERATIONS AND SYSTEM INITIATIVES BY ACTIVITY**

Program:	System Office Operations
Activity Name:	Board of Regents

Description:	Education Code Section 65.11 describes the Board of Regents as the The government of the university system is vested in a board of nine regents appointed by the governor with the advice and consent of the senate. The board may provide for the administration, organization, and names of the institutions and entities in The University of Texas System in such a way as will achieve the maximum operating efficiency of such institutions and entities, provided, however, that no institution or entity of The University of Texas System not authorized by specific legislative act to offer a four-year undergraduate program as of the effective date of this Act shall offer any such four-year undergraduate program without prior recommendation and approval by a two-thirds vote of the Texas Higher Education Coordinating Board and a specific act of the Legislature.

Additional Information:	The information reported as institutional funds reflect other UT system expenditures, including revolving funds expended related to operations except for the claims and related costs on insurance funds managed by UT System. The revolving funds presented would normally be eliminated as part of the annual financial report (AFR) preparation process and represents a difference in presentation between this analysis and amounts in the AFR. As UT System manages the UT Select self insured health program, over a billion dollars of systemwide claims activities flow through a revolving account related to it. UT System also manages similar programs for dental insurance, life insurance, vision insurance, medical liability, workers compensation and property/casualty. It was believed that these activities are systemwide related expenditures and not appropriate to include in System Office operations.

Program:	System Initiative
Activity Name:	AUF Online and On-campus Enrollment Growth
AUF Allocation:	\$68,939,116

Description:	In August 2014, the U.T. System Board of Regents approved a special one-time distribution from the PUF to the AUF equal to an additional 1.5 percent as a supplement to the original 5.5% distribution. The Board instructed the Chancellor to have each of the nine academic institutions develop a proposal over the subsequent six months to utilize these funds in support of online and on-campus enrollment growth with excellence. A total of \$68,939,116 has been designated for the purpose of supporting online and on-campus enrollment growth with excellence at the academic campuses other than U.T. Austin and \$56,400,000 for U.T. Austin. \$47,862,200 was allocated to fund a Competency Based Education program that is aligned and via technology developed by the U.T. System to systematically improve success, access and completion rates in areas of high employment demand. Any usage is subject to the constitutional restrictions on AUF.

Additional Information:	Institutional funds include Gates foundation grant for FY 2016-18 for the Competency Based Education Program. AUF lapse in FY 2017 and FY 2018 due to review of current projects and recommended reprioritizing some unspent balances to address higher priority activities.
--------------------------------	------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------

Program:	System Initiative
Activity Name:	Clinical Data Network
AUF Allocation:	\$12,400,000
Description:	Allocation made in May 2016. This project will create infrastructure for clinical data collection, aggregation within institutions, analysis and appropriate sharing between institutions. We proposed a distributed model, in which each institution creates and maintains a clinical data repository, thereby retaining control of their data. Institutions do not wish to maintain a separate data repository; the UTHSC Houston will act as a "coordinating center" for the network and will maintain data repositories for sites wishing to "outsource" this work.

Program:	System Initiative
Activity Name:	Los Alamos
AUF Allocation:	\$4,500,000
Description:	The UT System Board of Regents granted approval to pursue an opportunity with the U.S. Department of Energy. The proposal was for the management, operation and staffing of Los Alamos National Lab (LANL) to accomplish the missions assigned to LANL by the National Nuclear Security Administration (NNSA): to achieve Presidential and Congressional directives; to fully support the Nuclear Posture Review; to enhance and promote communication, cooperation, integration, interdependency that will result in improvements in the performance of the National Security Enterprise (NSE) as a whole; to perform the Laboratory's role as a lead element for the nuclear weapons; to provide cross-site coordination with NNSA's other NSE elements for program and project management; and integrate excellence in Laboratory operations, business operations, and laboratory management with the performance of world-class science and technology. If approval to pursue the bid is granted, The approved AUF funds of up to \$4.5 million dollars represent the estimated cost of developing and submitting the proposal to the Department of Energy.

Contracts with Health Institutions for development of UT System Population health strategic plan and systemwide Health Initiative.
--------------------------------	----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------

Program:	System Initiative
Activity Name:	Regents Outstanding Teaching Award
AUF Allocation:	\$8,000,000
Description:	Offered annually in recognition of faculty members of UT System health and academic institutions who have demonstrated extraordinary classroom performance and innovation in undergraduate instruction, the Regent's Outstanding Teaching awards are the Boards of Regent's highest honor. With a monetary award of \$25,000, these awards are among the largest in the nation for rewarding outstanding faculty performance. AUF funding provides support for UT Austin. Non-AUF funds support awards at other campuses.
