INTRODUCTION

1.1 Description of The University of Texas System

For more than 130 years, The University of Texas System has been committed to improving the lives of Texans and people all over the world through education, research and health care.

The University of Texas System is one of the nation's largest systems of higher education, with [14 institutions](#) that educate more than 230,000 students. Each year, UT institutions award more than one-third of all undergraduate degrees in Texas and almost two-thirds of all health professional degrees. With about 20,000 faculty – including Nobel laureates – and more than 80,000 health care professionals, researchers, student advisors and support staff, the UT System is one of the largest employers in the state.

Life-changing research and invention of new technologies at UT institutions places the UT System among the [top 10 “World’s Most Innovative Universities,”](#) according to Reuters. The UT System [ranks eighth in the nation in patent applications](#), and because of the high caliber of scientific research conducted at UT institutions, the UT System is ranked No. 1 in Texas and No. 3 in the nation in federal research expenditures.

In addition, the UT System is home to three of the nation's National Cancer Institute Cancer Centers – UT MD Anderson, UT Southwestern and UT Health Science Center-San Antonio – which must meet rigorous criteria for world-class programs in cancer research. And the UT System is the only System in the country to have four Clinical and Translational Science Awards (CTSA) from the National Institutes of Health.

Transformational initiatives implemented over the past several years have cemented UT as a national leader in higher education, including the expansion of educational opportunities in South Texas with the opening of The University of Texas Rio Grande Valley in 2015. And UT was the only system of higher education in the nation that established not one, but two new medical schools in 2016 at The University of Texas at Austin and UT Rio Grande Valley.

University of Texas institutions are setting the standard for excellence in higher education and will continue to do so thanks to our generous donors and the leadership of the [Chancellor](#), [Board of Regents](#) and [UT presidents](#).

1.2 Background and Special Circumstances

University Lands (UL) manages the surface and mineral interests of 2.1 million acres of land across nineteen counties in West Texas for the benefit of the Permanent University Fund (PUF).

The PUF is one of the largest university endowments in the United States and benefits more than twenty educational and health institutions across both [The University of Texas System](#) and [Texas A&M University System](#).

For more information, please visit: <http://www.utlands.utsystem.edu/Home/AboutUs>

1.3 Objective of Request for Proposal

The University of Texas System is soliciting proposals in response to this Request for Proposal No.720-2010 (this “**RFP**”), from qualified vendors to provide a Master Data Management Platform software services (the “**Services**”).

1.4 Group Purchase Authority

Texas law authorizes institutions of higher education (defined by [§61.003, Education Code](#)) to use the group purchasing procurement method (ref. §§[51.9335](#), [73.115](#), and [74.008](#), *Education Code*). Additional Texas institutions of higher education may therefore elect to enter into a contract with the successful Proposer under this RFP. In particular, Proposer should note that University is part of The University of Texas System (**UT System**), which is comprised of fourteen institutions described at <http://www.utsystem.edu/institutions>. UT System institutions routinely evaluate whether a contract resulting from a procurement conducted by one of the institutions might be suitable for use by another, and if so, this RFP could give rise to additional purchase volumes. As a result, in submitting its proposal, Proposer should consider proposing a pricing model and other commercial terms that take into account the higher volumes and other expanded opportunities that could result from the eventual inclusion of other institutions in the purchase contemplated by this RFP. Any purchases made by other institutions based on this RFP will be the sole responsibility of those institutions.

SECTION 2

2.5 Historically Underutilized Businesses

- 2.5.1 All agencies of the State of Texas are required to make a good faith effort to assist historically underutilized businesses (each a “**HUB**”) in receiving contract awards. The goal of the HUB program is to promote full and equal business opportunity for all businesses in contracting with state agencies. Pursuant to the HUB program, if under the terms of any agreement or contractual arrangement resulting from this RFP, Contractor subcontracts any of the Services, then Contractor must make a good faith effort to utilize HUBs certified by the Procurement and Support Services Division of the Texas Comptroller of Public Accounts. Proposals that fail to comply with the requirements contained in this **Section 2.5** will constitute a material failure to comply with advertised specifications and will be rejected by University as non-responsive. Additionally, compliance with good faith effort guidelines is a condition precedent to awarding any agreement or contractual arrangement resulting from this RFP. Proposer acknowledges that, if selected by University, its obligation to make a good faith effort to utilize HUBs when subcontracting any of the Services will continue throughout the term of all agreements and contractual arrangements resulting from this RFP. Furthermore, any subcontracting of the Services by Proposer is subject to review by University to ensure compliance with the HUB program.
- 2.5.2 University has reviewed this RFP in accordance with [Title 34, Texas Administrative Code, Section 20.285](#), and has determined that subcontracting opportunities (HUB and/or Non-HUB) are probable under this RFP. The HUB participation goal for this RFP is **26%**
- 2.5.3 A HUB Subcontracting Plan (“**HSP**”) is required as part of, *but submitted separately from*, Proposer’s proposal. The HSP will be developed and administered in accordance with University’s Policy on Utilization of Historically Underutilized Businesses and incorporated for all purposes.

*Each Proposer, **whether self-performing or planning to subcontract**, must complete and return the HSP in accordance with the terms and conditions of this RFP. Proposers that fail to do so will be considered non-responsive to this RFP in accordance with [§2161.252, Government Code](#).*

Questions regarding the HSP may be directed to:

*Contact: Kyle Hayes
HUB Coordinator*

Phone: 512-322-3745
Email: khayes@utsystem.edu

Contractor will not be permitted to change its HSP after the deadline submittal date unless: (1) Contractor completes a new HSP, setting forth all modifications requested by Contractor, (2) Contractor provides the modified HSP to University, (3) University HUB Program Office approves the modified HSP in writing, and (4) all agreements resulting from this RFP are amended in writing to conform to the modified HSP.

Instructions on completing an HSP

Proposer must visit <https://www.utsystem.edu/offices/historically-underutilized-business/hub-forms> to download the most appropriate HUB Subcontracting Plan (HSP) / Exhibit H form for use with this Request for Proposal. Proposer will find, on the HUB Forms webpage, a link to “[Guide to Selecting the Appropriate HSP Option](#)”. **Click on this link and read the Guide first before selecting an HSP Option.** Proposer shall select, from the four (4) Options available, the Option that is most applicable to Proposer’s subcontracting intentions. These forms are in **fillable** PDF format and must be downloaded and opened with *Adobe Acrobat / Reader* to utilize the fillable function. If Proposer has any questions regarding which Option to use, Proposer shall submit the question via Bonfire portal.

Proposer must complete the HSP, then print, sign and scan *all pages* of the HSP Option selected, with additional support documentation*, **and submit via Bonfire portal.** NOTE: signatures must be “wet” signatures. Digital signatures are not acceptable.

Any proposal submitted in response to this RFP that does not have a corresponding HSP meeting the above requirements may be rejected by University and returned to Proposer as non-responsive due to material failure to comply with advertised specifications.

Each Proposer’s HSP will be evaluated for completeness and compliance prior to opening the proposal to confirm Proposer compliance with HSP rules and standards. Proposer’s failure to submit one (1) completed and signed HUB Subcontracting Plan **to the Bonfire portal** may result in University’s rejection of the proposal as non-responsive due to material failure to comply with advertised specifications.

***If Proposer’s submitted HSP refers to specific page(s) / Sections(s) of Proposer’s proposal that explain how Proposer will perform entire contract with its own equipment, supplies, materials and/or employees, Proposer must submit copies of those pages with the HSP sent to the Bonfire Portal. In addition, all solicitation emails to potential subcontractors must be included as backup documentation to the Proposer’s HSP to demonstrate Good Faith Effort.** Failure to do so will slow the evaluation process and may result in DISQUALIFICATION.

If Proposer's exceptions do not result in disqualification of Proposer's proposal, then University may consider Proposer's exceptions when University evaluates the Proposer's proposal.

Additionally, *Proposer must submit as part of its Proposal all terms and conditions that it proposes to include in any contract or agreement resulting from this RFP (such as software license terms and conditions) in accordance with Section 5.2.1 of this RFP.* Proposer bears all risk and responsibility for its failure to include such terms and conditions in its Proposal. 5.3 Project Overview and Scope of Work

Project Overview

University Lands is seeking a Master Data Management (MDM) platform to unify our disparate datasets into a centralized data ecosystem that users can trust, enabling the business to make better decisions in a timelier manner.

To reach these goals, University Lands is now accepting bids in response to this Request for Proposal.

Scope of Work

This RFP requires the installation and configuration of a commercial MDM platform that will autonomously ingest multiple oil and gas well data sources and apply data provenance and quality rules to produce a “Golden” well record for use by various UL systems and applications.

Beyond this requirement, UL seeks a platform that can be extended through future configuration to support other data types, preferably through configuration by UL staff.

Additionally, University Lands is working to instill strong data governance principles across our organization. University requires a system that streamlines integrations upstream and downstream, applies business quality and provenance rules and provide a hierarchical permissions model that allows us to apply our data governance.

1. Design and implement a UL Master Data Management Solution

University Lands currently has multiple SQL Server databases. Most of them are transactional with a couple reserved for analytical purposes. Data consumed from 3rd party data vendors and systems are either manual or done with scripts that reach out to those sources using different methods, on various schedules and with little uniformity.

- Discovery/Systems Analysis
- Training
- Installation
- Configuration
- Integration

2. Integrate key sources and systems

UL currently uses Excel, SSRS, Spotfire, and Power BI for reporting and analytics. Our intent is to narrow that down to the BI tools and have a “data mart” where users retrieve their data in a controlled and trusted manner. UL uses spatial data throughout the organization and are looking to integrate Geographic Information System (GIS) workflows. Geology and Geophysics (G&G) is also a key focus, and UL utilizes the likes of IHS Kingdom and Petrel.

a. MDM input sources and formats to be supported

- IHS Data Subscriptions (Enerdeq)
- Enverus/DrillingInfo Data Subscriptions
- SQL Server databases
- ESRI - File Geodatabase and Shapefile
- RESTful/SOAP Web Services
- FTP Sites
- Email Accounts/Exchange Server
- File Systems
- Web Scraping (HTML...)
- Data Lakes

b. Key systems requiring direct access/integration to MDM data

- Kingdom
- Petrel
- Spotfire
- Power BI
- ArcGIS Enterprise Platform
- UL Custom Developed Solutions

3. Proof of Concept (POC)

Prior to award, a single vendor or a short-list of vendors *may* be selected to provide a functional Proof of Concept. At a minimum, the POC will;

- Ingest UL SQL Server well data
- Ingest subscription data from Enerdeq and Enverus
- Enable UL to evaluate configuration and management tools
- Demonstrate the production of “Golden” well records
- Enable UL evaluation of system access to MDM data from;
 - Kingdom,
 - Petrel,
 - Spotfire,
 - Power BI
 - ArcGIS Pro
 - ArcGIS Enterprise Portal

University will use commercially reasonable efforts to avoid public disclosure of the contents of a proposal prior to selection of Contractor.

University may make the selection of Contractor on the basis of the proposals initially submitted, without discussion, clarification or modification. In the alternative, University may make the selection of Contractor on the basis of negotiation with any of the Proposers. In conducting negotiations, University will use commercially reasonable efforts to avoid disclosing the contents of competing proposals.

University may discuss and negotiate all elements of proposals submitted by Proposers within a specified competitive range. For purposes of negotiation, University may establish, after an initial review of the proposals, a competitive range of acceptable or potentially acceptable proposals composed of the highest rated proposal(s). In that event, University may defer further action on proposals not included within the competitive range pending the selection of Contractor; provided, however, University reserves the right to include additional proposals in the competitive range if deemed to be in the best interest of University.

After the Submittal Deadline but before final selection of Contractor, University may permit Proposer to revise its proposal in order to obtain the Proposer's best and final offer. In that event, representations made by Proposer in its revised proposal, including price and fee quotes, will be binding on Proposer. University will provide each Proposer within the competitive range with an equal opportunity for discussion and revision of its proposal. University is not obligated to select the Proposer offering the most attractive economic terms if that Proposer is not the most advantageous to University overall, as determined by University.

University reserves the right to (a) enter into an agreement for all or any portion of the requirements and specifications set forth in this RFP with one or more Proposers, (b) reject any and all proposals and re-solicit proposals, or (c) reject any and all proposals and temporarily or permanently abandon this selection process, if deemed to be in the best interests of University. University reserves the right to accept or reject any or all proposals, waive any formalities, procedural requirements, or minor technical inconsistencies, and delete any requirement or specification from this RFP or the Agreement when deemed to be in University's best interest. University reserves the right to seek clarification from any Proposer concerning any item contained in its proposal prior to final selection. Such clarification may be provided by telephone conference or personal meeting with or writing to University, at University's sole discretion. Representations made by Proposer within its proposal will be binding on Proposer.
