Independent Accountants' Report

Sandra Woodley, D.B.A., President The University of Texas Permian Basin

National Collegiate Athletic Association

We have performed the procedures enumerated below to confirm whether the accompanying schedule of revenue and expenses (unaudited) (the Schedule) of The University of Texas Permian Basin (the University) Department of Intercollegiate Athletics is in compliance with National Collegiate Athletic Association (NCAA) Bylaw 7.3.1.5.22.1 for the year ended August 31, 2024 (the reporting period). The University's management is responsible for the accompanying Schedule.

The University has agreed to and acknowledged that the procedures performed are appropriate to meet the intended purpose of the engagement of complying with NCAA Bylaw 7.3.1.5.22.1. Additionally, the NCAA has specified in their Bylaws the procedures to be performed and, therefore has agreed to and acknowledged that the procedures performed are appropriate to meet their purposes. This report may not be suitable for any other purpose. The procedures performed may not address all the items of interest to a user of this report and may not meet the needs of all users of this report and, as such, users are responsible for determining whether the procedures performed are appropriate for their purposes.

Material exceptions for reporting are defined as errors or misclassifications equal to or greater than 1% of total revenues or expenses. Immaterial differences, if any, were discussed with management and adjusted as needed on the Schedule.

The procedures we performed, and our associated findings are as follows:

Agreed-Upon Procedures Related to the Schedule of Revenues and Expenses

• We obtained the Schedule for the year ended August 31, 2024, as prepared by management. We compared the amounts reported on the Schedule to the University's general ledger.

We found no exceptions as a result of these procedures.

Revenue General

Compared and agreed each operating revenue category reported in the Schedule during the
reporting period to supporting schedules provided by the University. If a specific reporting category
was less than 4% of the total operating revenues, net of the University's direct and indirect support,
no procedures were required for that specific category.

We found exceptions as a result of these procedures, see contributions revenue and other revenue sections below.

Compared and agreed a sample of 25 operating revenue receipts obtained from the above operating
revenue supporting schedules to adequate supporting documentation. The sample was selected from
revenue categories that exceeded 4% of total operating revenues, net of the University's direct and
indirect support.

We found exceptions as a result of these procedures, see contributions revenue and other revenue below.

• Compared each major revenue account over 10% of the total revenues net of the University's direct and indirect support, to prior period amounts and budget estimates. Obtained and documented an explanation from management of any variations greater than 10%. The analysis is reported as supplementary information to the final agreed-upon procedures report.

We found no exceptions as a result of these procedures.

The above-referenced testing included the following procedures for specific revenue sources:

Ticket Sales

• As the total ticket sales reported on the Schedule was less than 4% of total operating revenues, net of the University's direct and indirect support, no procedures were performed.

Direct State or Other Government Support

 There was no direct state or other government support reported on the Schedule, so no procedures were performed.

Student Fees

- Selected a sample of student fees transactions during the reporting period and agreed each selection to the University's general ledger and/or the Schedule and recalculate totals.
- Compared and agreed student fees reported by the University in the Schedule for the reporting period to student enrollments during the same reporting period and recalculated totals.
- Obtained documentation of the University's methodology for allocating student fees to intercollegiate athletics programs.
- If the athletics department is reporting that an allocation of student fees should be countable as generated revenue, recalculated the totals of the University's methodology for supporting that they are able to count each sport. Tied the calculation to supporting documents such as seat manifests, ticket sales reports, and student fee totals.

We found no exceptions as a result of these procedures.

Direct Institutional Support

- Compared the direct institutional support recorded by the University during the reporting period with the institutional supporting budget transfers documentation and other corroborative supporting documentation.
- Recalculated totals.

We found no exceptions as a result of these procedures.

- Recalculated totals.

We found no exceptions as a result of these procedures.

Guarantees

• As the guarantees reported on the Schedule were less than 4% of total operating revenues, net of the University's direct and indirect support, no procedures were performed.

Contributions

- Requested contributions of moneys, goods or services received directly by the intercollegiate athletics
 program from any affiliated or outside organization, agency or group of individuals (two or more) not
 included above (e.g., contributions by corporate sponsors) that constitute 10% or more in aggregate
 for the reporting period of all contributions received for intercollegiate athletics during the reporting
 period. There were two donors that contributed 10% or more in the current year that we tested as part
 of our sample. We selected a sample of contributions and obtained supporting documentation.
- Recalculated totals.

The original Schedule contributions total was determined to be incorrect by a material amount. When the auditor requested support, the Schedule and supporting documentation were subsequently updated by the University and reviewed by the auditor. Additionally, we were unable to complete the procedures as the University did not provide and/or confirm support for two of our selections.

In-Kind

 As the total in-kind contributions reported on the Schedule were less than 4% of total revenues, net of the University's direct and indirect support, no procedures were performed.

- Recalculated totals.

The University was unable to provide supporting documentation for 1 of our selections. We found no exception as a result of these procedures for our other selection.

Football Bowl Revenues

• There were no football bowl revenues reported on the Schedule, so no procedures were performed.

Expense General

 Compared and agreed each expense category reported in the Schedule during the reporting period to supporting schedules provided by the University. If a specific reporting category was less than 4% of the total expenses, net of the University's athletic student aid and indirect support, no procedures were required for that specific category.

We found no exceptions as a result of these procedures.

 Compared and agreed a sample of 25 expenses obtained from the above operating expense supporting schedules to supporting documentation. The sample was selected from expense categories that exceeded 4% of total operating expenses, net of the University's athletic student aid and indirect support. We found exceptions as a result of these procedures, see coaching salaries, benefits and bonuses below.

• Compared each major expense account over 10% of the total expenses to prior period amounts and budget estimates. Obtained and documented an explanation from management of any variations greater than 10%. The analysis is reported as supplementary information to this report.

We found no exceptions as a result of these procedures.

The above referenced testing included the following procedures for specific operating expense transactions:

Athletic Student Aid

- Selected a sample of 34 students (10% of the total student athletes) from the listing of institutional student aid recipients during the reporting period.
- Obtained individual student account detail for each selection and compared total aid in the University's student system to the student's detail in Compliance Assistant (CA) or University's report that ties directly to the NCAA Membership Financial Reporting System.
- Recalculated totals for each sport and overall.

We found three exceptions as a result of these procedures. For each of the students, the student's aid within CA did not agree to the University's student account detail. We observed the corrected student aid information in CA. We were also unable to reconcile total athletic aid per CA to the Schedule.

Guarantees

As the total of guarantees expenses reported on the Schedule was less than 4% of total operating
expenses, net of the University's athletic student aid and indirect support, no procedures were
performed.

- Recalculated totals.

We found no exceptions as a result of these procedures.

1. Basis of Presentation

The accompanying schedule of revenues and expenses (the Schedule) for the fiscal year ended August 31, 2024 includes the revenues and expenses of the Department of Intercollegiate Athletics of The University of Texas Permian Basin (the University) and its intercollegiate athletic programs.

The activities reported within the Schedule include all men's and women's intercollegiate athletic programs. Certain shared costs are allocated to the individual sports based on the relative benefits provided by such activities.

In accordance with National Collegiate Athletic Association (NCAA) financial agreed-upon procedures guidelines, restricted gifts and endowment earnings are reported in the Schedule based upon the existence of conditions placed upon the use of the award by the donor. In addition, plant-related activity such as depreciation is not included in the Schedule. However, the University's policy in regard to property, plant and equipment is to record such assets at cost, or if acquired by gift, at fair value at the date of the gift. Assets are depreciated using the straight-line method over the estimated useful lives of the assets. As assets are retired, sold, or otherwise disposed of, the cost and related accumulated depreciation are removed from the accounts, and gains and losses resulting from such transactions are recorded. Maintenance and repairs are expensed as incurred.

The accompanying Schedule has been prepared on the accrual basis of accounting and in accordance with NCAA Bylaws, which is a basis of accounting other than accounting principles generally accepted in the United States of America. Equipment purchases and debt principal payments, which are reported as expenses in the accompanying Schedule, would be capitalized and presented as assets or as a reduction of liabilities, respectively, on the statement of financial position of financial statements prepared in conformity with accounting principles generally accepted in the United States of America.
