**Job Details**
Organization Name: The University of Texas System Administration  
Department: Office of External Relations  
Office Location: Austin, TX or remote location  
No. of Openings: 2  
Job Type: Contract  
Monthly salary range: $3,700 – $4,166  
Benefits Eligible: No  
Contract Term: 6 months

**Position Description**
The University of Texas System seeks a contract Drupal Developer to assist the Web Team in the Office of External Relations. The Drupal Developer will assist the Web Team’s project of transitioning legacy HTML sites into the main UT System Drupal site. This includes working with internal offices to determine site needs, creating new section settings and configurations, and testing before deployment. The developer will also help on day-to-day operations of the UT System Drupal site as needed.

Duties will include:
- Assess and transition legacy HTML sites into Drupal and develop corresponding new features if needed.
- Revisit existing modules, settings, and configurations for better implementation and streamlining.
- Edit existing Drupal configurations to accommodate new requests, usage and growth.
- Test, debug, and run quality assurance for new Drupal content types, modules and settings.
- Handle short term production requests for UT System offices and initiatives.

**Required Qualifications**
Bachelor’s degree (or equivalent experience) and 3 years of full-time employment in Web development positions, or an Associate’s degree (or equivalent experience) with 5 years of full-time employment in Web development positions.

**Preferred Experience**
- Minimum of two years experience as a Drupal developer. Sites with large scopes and/or a large amount of users are preferred (public or private sector).
- Experience with implementing accessibility and web standards.
- Exposure with developing mobile websites or web apps.
- Preferred experience with the following:
  - Drupal 6 installs, Acquia cloud hosting and 3 tier deployment environment.
  - Modules: Views, Panels, Taxonomy, Revisioning, Tiny MCE/WYSIWYG. CSS writing/editing.
  - Theme and CSS development.
**How to Apply**

Send one email to esc@utsystem.edu with the following, as specified:

- Subject Line should read as follows:
  - Contract Drupal Web Developer - Office of External Relations
- Attach in Word or Adobe Acrobat the following File Attachments
  - Current Resume
  - Letter of Interest
  - Three References with contact information

**About U.T. System**

Established by the Texas Constitution in 1876, The University of Texas System consists of nine academic and six health institutions. The University of Texas System Administration (based in Austin, Texas and found on the web at www.utsystem.edu) is responsible for the central management and coordination of the 15 institutions.

Using strategic communication and interaction, The Office of External Relations strives to connect the UT System with the public. The office consists of four areas of expertise that assist and collaborate with each of the 15 UT institutions and UT System administrative offices to provide the public with an array of resources.

This position is security sensitive and subject to Texas Education Code 51.215, which authorizes the employer to obtain criminal history record information.

Please direct any questions regarding this position or how to apply to (512) 499-4587 or esc@utsystem.edu.

The University of Texas System is an Equal Opportunity/Affirmative Action Employer.
